World Civilizations 6th Edition Test Bank:

World Civilizations Philip J. Adler, 2003 WORLD CIVILIZATIONS offers students a comprehensive and balanced overview of the world's major civilizations spanning from the ancient world to modern times. With more than half of the text devoted to non-Western civilizations, this Third Edition provides increased attention to modern-day Islam, pre-colonial Africa, the role of women throughout history, and the global effects of World War II on the various civilizations. Throughout, Philip Adler describes history as the story of how individuals have tried, with varying degrees of success, to meet their physical, emotional, and intellectual needs and desires. Even though terrorism poses an increasing threat to multinational companies, corporate leaders can thwart attacks by learning to navigate the complexities of foreign governments, social unrest, and cultural dissonance. Multinational corporations are on the front lines of terrorism and cyberattacks, two of the world's biggest threats to global security. How can corporate leaders mitigate their organizations' risks and develop an infrastructure that detects and deters a security menace before it happens? This timely reference lays out essential political context and historical background to help executives identify contemporary threats and understand the interconnections between threat dynamics in an increasingly dangerous international environment. This compelling work is organized into seven chapters. The beginning chapters profile the specific risks for multinational companies and detail which global and regional factors might propagate violence targeted at American-based businesses. Next, two historical case studies on terrorist assaults at Tignatourine and Mombasa illustrate how counterterrorism can successfully thwart potential attacks against business targets. The final part describes industrial espionage and criminal activity and then outlines a corporate counterterror blueprint to combat the prospect of terrorism, providing specific recommendations for preventative measures.
