World History Released Exam 2002 College Entrance Examination Board. Advanced Placement Program, 2003

The New World History Ross E. Dunn, Laura J. Mitchell, Kerry Ward, 2016-08-23 The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field. The forty-four articles in this book take stock of the history evolving literature and current trajectories of new world history. These essays together with the editors' introductions to thematic chapters encourage educators and students to reflect critically on the development of the field and to explore concepts, approaches, and insights valuable to their own work. The selections are organized in ten chapters that survey the history of the movement, the seminal ideas of founding thinkers, and today's practitioners changing concepts of world historical space and time, comparative methods, environmental history, the big history movement, globalization debates over the meaning of Western power, and ongoing questions about the intellectual premises and assumptions that have shaped the field.

Navigating World History P. Manning, 2003-05-15 World history has expanded dramatically in recent years, primarily as a teaching field and increasingly as a research field. Growing numbers of teachers and Ph.D.s in history are required to teach the subject. They must be current on topics from human evolution to industrial development in Song dynasty China to today's disease patterns and then link these disparate topics into a coherent course. Numerous textbooks in print and in preparation summarize the field of world history at an introductory level. But good teaching also requires advanced training for teachers and access to a stream of new research from scholars trained as world historians. In this book, Patrick Manning provides the first comprehensive overview of the academic field of world history. He reviews patterns of research and debate and proposes guidelines for study by teachers and by researchers in world history.
