

AP WORLD HISTORY STUDY GUIDE

Unit 1 (1200-1450):

1.1: State Building in China

- China was kind of like the Texas of the ancient world: Don't mess with China.
- In 960, China was split into regional kingdoms again as the power of the Tang Dynasty was gradually waning. Zhao Kuangyin: ruler of one of those kingdoms that took it upon himself to unify most of them all again as the Song Dynasty. (960-1279)
- Song State Structure: 6 departments
 - Personnel, finance, rites, army, justice, and public works.
 - Censorate overseeing these departments. Made sure no one in these bureaucratic departments were behaving bad.
- Confucianism: chief things that helped organize the government.
 - Great continuity in Chinese culture over the years
 - According to Confucian thought, reality is fundamentally hierarchical. Everyone has their place in society, and everyone needs to behave rightly and fulfill their role for everything to go well. (People subject to rulers, etc.)
- Civil service examination:
 - Influenced by Confucian ideals. Major part of the exam was being WELL VERSED in Confucian ideals.
 - A test you had to pass in order to work in the imperial bureaucracy.
 - Led ruling from a heretic form of aristocracy to a new class of scholarly leaders
 - Aristocracy: a form of government in which power is held by the nobility.
- Chinese merchants participated heavily in robust system of long-distance trade across Afro-Eurasia.
 - Increasingly commercialized Chinese society. People began to produce goods not only for local consumption, but also for distant markets. Chinese manufacturing FLOURISHED during this period.
- By the 11th century, China's iron industry was producing 32,000 suits of armor and 16 million iron arrowheads ANUALLY.
- As commerce grew, role of money also changed. As economy grew, there was not enough precious metal available for minting coins to keep up with the demand.
 - Introduction of paper money
 - Became more popular than minting coins
- Gunpowder
 - Accidental discovery by Daoist alchemists trying to discover elixir of immortality.
 - First application was fireworks and pyrotechnic displays for imperial court, not in a military context.
 - Military context next.
- Influenced Japan
 - Chinese influence was all over Japanese culture.

World History Study Guide Stearns:

The Patchwork of World History in Texas High Schools Stephen Jackson, 2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States

Child Labour Opponents and Their Campaigns in the Americas Nina Schneider, 2025-11-03 This book delves into the past and examines the origins of activism against child labour It addresses a hitherto under examined question how and why did child labour develop into a key concern between the 1880s and 1930s Who were the protagonists who first raised the issue of child labour as a global concern The study aims to provide the first account of the history of diverse and locally grounded but nationally and frequently globally connected child labour opponents in the Americas their motivations and campaigns at the turn of the 20th century I argue that for the period between 1888 and 1938 one can identify similar protagonists a joint goal a broadly similar timing common platforms comparable campaigning mechanisms and many types of connections or entanglements across regions Nevertheless in contrast to the global anti slavery movement child labour opponents formed a loosely institutionalised network which lacked an international organisation that focused specifically on child labour A global history approach to child labour opponents helps reveal large scale patterns across societies and highlight similarities and differences between cases
