Wouldn't It Be Nice My Own Story Brian Wilson:

Wouldn't it Be Nice Brian Wilson, 1993 Brian Wilson was the creative genius behind the Beach Boys He turned a suburban California garage band into a group that took the world by storm with the sound of his songs including such classics as Good Vibrations California Girls and God Only Knows Brian Dennis Carl Mike and Al were the free wheeling good time guys who personified the laid back sunny southern California lifestyle They were the most popular rock group in the world **The Beach Boys** , Wouldn't It Be Nice Charles L. Granata, Tony Asher, 2016-10-01 When he first started working on Pet Sounds Brian Wilson said that he was going to write the greatest rock album ever made That album released in 1966 fifty years ago changed the face of popular music From conception and composition to arrangement and production Pet Sounds was the work of one extraordinary man Turning his back on the protest songs and folk rock of his contemporaries and even on the bright surf sound of his own creation Brian Wilson reached deep within himself to make music that struck an emotional chord and touched people's souls Embracing the rapidly advancing recording technology of the time he expertly created an original studio sound that would inspire generations of listeners and musicians Featuring a detailed track by track analysis of the songs and extensive interviews with key personalities Wouldn't It Be Nice reveals the influences musical personal and professional that together created this groundbreaking album Now revised to include new information and recent developments this is the definitive book on one of the greatest albums ever made Why the Beach Boys Matter Tom Smucker, 2018-10-02 An excellent introduction to the band that might have evolved the author suggests into the Beatles New York Journal of Books Of all the white American pop music groups that hit the charts before the Beatles only the Beach Boys continued to thrive throughout the British Invasion to survive into the 1970s and beyond The Beach Boys helped define both sides of the era we broadly call the sixties split between their early surf car and summer pop and their later hippie counterculture and ambitious rock No other group can claim the Ronettes and the Four Seasons as early 1960s rivals the Mamas and the Papas and Crosby Stills and Nash as later 1960s rivals and the Beatles and the Temptations as decade spanning counterparts This is the first book to take an honest look at the themes running through the Beach Boys art and career as a whole and to examine where they sit inside our culture and politics and why they still grab our attention **God Only Knows** Jeff Sellars, 2015-12-14 The Beach Boys are one of rock's most enduring and enigmatic groups and while the band has been the subject of numerous biographies and other in depth studies there has been no focused evaluation of the religious and spiritual themes in their work Spiritual and theological themes are present in much of their work and when this realization is coupled with Brian Wilson's mission to spread the gospel of love through records and his sense of music as spiritual of thinking pop music is going to be spiritual that's the direction I want to go this is a striking way to explore the band's music In *God Only Knows* the contributors attempt to come to grips with just a small amount of this band's massive output by circling around its theological virtues Each section of the book is a loose investigation of the guiding topics of faith

hope and love Each essay is a free exploration of theological and spiritual themes from the contributor's own perspectives
