Leppien, Jeanne H. Purcell, 2011-04-07 Parallel Curriculum Units for Mathematics Grades 6 12 combines four essential models for improving student understanding and growth in mathematics The lessons provided in the textbook build on students abilities so they can see all parts of a math problem and are able to tackle and understand it at various levels Elizabeth Alvarez Assistant Principal John C Dore Elementary Chicago IL Maximize your mathematics curriculum to challenge all students This collection of lessons building on material presented in the best selling The Parallel Curriculum is written by experienced teachers who provide innovative and challenging learning opportunities for students in Grades 6 12 The four sample units focus on fractions linear programming geometry and quadratic relationships The authors provide user friendly methods for creating high quality lessons and demonstrate how to differentiate these lessons for the benefit of all students Included are field tested and standards based strategies that guide students through Understanding secondary level mathematics concepts Discovering connections between mathematics and other subjects Developing critical thinking skills Connecting mathematics learning to society through the study of real world data proportional reasoning and problem solving Each unit includes subject matter background a content framework study components teacher reflections and sample lessons Learn from the experts and enhance your mathematics curriculum with these proven strategies *Secondary Maths in Action* Emma McCrea, 2025-07-11 In Secondary Maths in Action experienced curriculum expert and maths teacher Emma McCrea offers insights into the complex task of teaching maths Taking an evidence informed stance Emma first explores the age old question of why we study maths and the important role it plays in our lives and in society Next she examines several pertinent debates in maths those of pupil grouping mastery and gender Finally we are taken on a grand tour of curriculum pedagogy and assessment as the fundamental pillars of great teaching Additionally the book includes four rich case studies revisited throughout the curriculum pedagogy and assessment chapters which help to showcase how these ideas can be applied in various contexts so you can really see what it all looks like In Action **Lessons in College Algebra** Robert A. Nowlan, 1978 **Research for Educational Change** Jill Adler, Anna

Sfard,2016-06-17 Research for Educational Change presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research GCSE Mathematics for AQA

Higher Student Book Karen Morrison,Julia Smith,Pauline McLean,Rachael Horsman,Nick Asker,2015-04-30 A new series of bespoke full coverage resources developed for the 2015 GCSE Mathematics qualifications Approved by AQA and created specifically for the GCSE Mathematics Higher tier specification for first teaching from 2015 this Student Book covers the new GCSE Mathematics qualification With a strong focus on developing problem solving skills reasoning and fluency it helps students understand concepts apply techniques solve problems reason interpret and communicate mathematically Written by experienced teachers it also includes a solid breadth and depth of quality questions set in a variety of contexts GCSE Mathematics Online an enhanced digital resource incorporating progression tracking is also available as well as Problem solving Books Homework Books and a free Teacher s Resource **Combined Worktext to Accompany Videotext**
