philosophy Pettit argues that it was Hobbes not later thinkers like Rousseau who invented the invention of language thesis the idea that language is a cultural innovation that transformed the human mind The invention in Hobbes s story is a double edged sword It enables human beings to reason commit themselves as persons and incorporate in groups But it also allows them to agonize about the future and about their standing relative to one another it takes them out of the Eden of animal silence and into a life of inescapable conflict the state of nature Still if language leads into this wasteland according to Hobbes it can also lead out It can enable people to establish a commonwealth where the words of law and morality have a common enforceable sense and where people can invoke the sanctions of an absolute sovereign to give their words to one another in credible commitment and contract Written by one of today s leading philosophers Made with Words is both an original reinterpretation and a clear and lively introduction to Hobbes s thought **The Abingdon Worship Annual 2025** B.J.
