Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies *Official South African Trade Unions Directory and Industrial Relations Handbook*, 1999

Utilisation of South African Research on Higher Education Jan Botha ,Gabriele Vilyte ,2021-10-26 The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country Private Higher Education and Public Policy in Africa Isaac Nnamdi Obasi, 2008 **Like Water is for Fish** Garth

Japhet, 2021-01-18 The Soul City and Soul Buddyz series are memorable for the way in which they integrated health topics into compelling storylines on TV radio and in print creating stories so popular that they entertained and informed millions of people And the Heartlines What s Your Story programme and films such as Beyond the River continue to provide witness to the transformative power of story As a young boy Garth Japhet found his life radically shaped by the Jungle Doctor series of books The stories so enthralled him that against all advice he set his heart on medicine He could see his future with a backdrop of savannas golden sunsets adventure and accolades as a romantic figure a healer a hero This fantasy sustained

Garth through the challenges of medical training but finally he arrived He was Dr Japhet living the dream Except the dream was a nightmare The reality of medicine was not the life he had hoped for There were times when he cursed the power of the story that had so completely messed up his life Having struggled with anxiety most of his life he was catapulted into a deep depression And then it happened Garth stumbled upon the healing power of story fictional factual and his own What magic was at work here If stories had changed him could he use story to change others This question set him on the journey described in *Like Water is for Fish* a journey that led to Garth co founding Soul City and Heartlines and to an understanding that story in its multiple forms is as essential for our lives as water is for fish When you share your story with others and they share theirs with you barriers break down hardened attitudes shift and healing begins
