Unit 3 Chapter 1the Scramble For Africa:

The Ideological Scramble for Africa Frank Gerits,2023-03-15 In *The Ideological Scramble for Africa* Frank Gerits examines how African leaders in the 1950s and 1960s crafted an anticolonial modernization project Rather than choose Cold War sides between East and West anticolonial nationalists worked to reverse the psychological and cultural destruction of colonialism Kwame Nkrumah s African Union was envisioned as a federation of liberation to challenge the extant imperial forces the US empire of liberty the Soviet empire of equality and the European empires of exploitation In the 1950s the goal of proving the potency of a pan African ideology shaped the agenda of the Bandung Conference and Ghana s support for African liberation while also determining what was at stake in the Congo crisis and in the fight against white minority rule in southern and eastern Africa In the 1960s the attempt to remake African psychology was abandoned and socioeconomic development came into focus Anticolonial nationalists did not simply resist or utilize imperial and Cold War pressures but drew strength from the example of the Haitian Revolution of 1791 in which Toussaint Louverture demanded the universal application of Europe s Enlightenment values The liberationists of the postwar period wanted to redesign society in the image of the revolution that had created them *The Ideological Scramble for Africa* demonstrates that the Cold War struggle between capitalism and Communism was only one of two ideological struggles that picked up speed after 1945 the battle between liberation and imperialism proved to be more enduring

American Imperialist Arwen Mohun, 2023-11-16 The work of imperialism requires imperialists But who were the everyday people who willingly served the traditional European empires Why did they do things that ranged from thoughtless and amoral to criminal and unforgivable With unblinking clarity and precision Arwen Mohun here interrogates the life and actions of her great grandfather Richard Dorsey Mohun an American who abetted King Leopold of Belgium's horrific exploitation of the Congo Free State Mohun details his careless and racist use of power revealing him as an all too unreflective ambassador of American corporate imperialism She seeks not to excuse Dorsey but to understand how individual desire and imperial lust fueled one another to catastrophic ends *West African Soldiers in Britain's Colonial Army (1860-1960)* Timothy Stapleton, 2022 *West African Soldiers in Britain's Colonial Army 1860-1960* explores the history of Britain's West African colonial army based in Nigeria Ghana Sierra Leone and the Gambia placing it within a broader social

context and emphasizing as far as possible the experience of the ordinary soldier The aim is not to describe the many battles and campaigns fought by this force but to look at the development of the West African colonial army as an institution over the course of about a century In pursuing this goal it is sometimes useful to employ the lens of military culture defined differently by scholars but essentially meaning a set of shared ideas and behaviors that inform daily life in the military While other locally recruited colonial militaries in Africa have attracted considerable attention from historians as they served as an essential pillar supporting European rule this book represents the first comprehensive scholarly study of Britain's West African army which was the largest such British led force south of the Sahara The study is based on extensive archival research conducted in nine archives located in five countries

Boundaries and Secession in Africa and International Law Dirdeiry M.

Ahmed, 2015-12-11 This book challenges a central assumption of the international law of territory The author argues that contrary to the finding in the Frontier Dispute case *uti possidetis* is not a general principle of law enjoining states to preserve pre existing boundaries on state succession It demonstrates that African state practice and *opinio juris* gave rise to customary rules that govern sovereign territory transfer in Africa It explains that those rules changed international law as it relates to Africa in many respects leading chiefly to creating norms of African *jus cogens* prohibiting secession and the redrawing of boundaries The book examines in depth the singularity of secession in Africa exploring extensive state practice and case law Finally it advances a daring argument for a right to egalitarian self determination addressing people to people domination in multi ethnic African states to serve as an exception to the fast special customary rule against secession

The Idea of Greater Britain Duncan Bell, 2011-04-17 During the tumultuous closing decades of the nineteenth century

as the prospect of democracy loomed and as intensified global economic and strategic competition reshaped the political imagination British thinkers grappled with the question of how best to organize the empire Many found an answer to the anxieties of the age in the idea of Greater Britain a union of the United Kingdom and its settler colonies in Australia Canada New Zealand and southern Africa In The Idea of Greater Britain Duncan Bell analyzes this fertile yet neglected debate examining how a wide range of thinkers conceived of this vast Anglo Saxon political community Their proposals ranged from the fantastically ambitious creating a globe spanning nation state to the practical and mundane reinforcing existing ties between the colonies and Britain But all of these ideas were motivated by the disquiet generated by democracy by challenges to British global supremacy and by new possibilities for global cooperation and communication that anticipated today s globalization debates Exploring attitudes toward the state race space nationality and empire as well as highlighting the vital theoretical functions played by visions of Greece Rome and the United States Bell illuminates important aspects of late Victorian political thought and intellectual life

Nature Crime Rosaleen Duffy,2010-08-31 The perilous state of endangered species such as tigers and rhinos and the worldwide illegal trade in ivory diamonds bushmeat and many other rare and valuable commodities are familiar issues in the West The heroes in these narratives are those who work to create protected areas for wildlife the villains the shadowy poachers and smugglers who destroy endangered animals and their habitats for the sake of profit In this groundbreaking book Rosaleen Duffy argues that the story is much more complex than this She analyses the workings of the black market wildlife industry pointing out that illegal trading is often the direct result of Western consumer desires from coltan for mobile phones to caviar for the global elite She looks at how tourists contribute often unwittingly to the destruction of natural environments Most strikingly she argues that the imperatives of Western style conservation often result in serious injustice to local people who are at risk of losing not only their land but sometimes even their lives The result of many years of first hand research this book is essential reading for anyone who wants to understand the complex realities of nature conservation Jacket
