Pure Theory of Democracy Antonio García-Trevijano,2009-09-30 This is not a democracy Antonio Garc a Trevijano denounces
in the first pages of this book To confront the great lie that Europe does have democratic regimes a lie rooted in people s
confounding of the liberties they enjoy with the political freedom that they lack the author builds a realistic theory of
democracy to end the false idea that corruption state crime and public immorality are democracy s undesirable products and
not the natural and inevitable fruits of oligarchic regimes Thanks to a superb review of the events that mark the history of
democracy the author reveals the obstacles that from the 17th century English revolution the United States War of
Independence and the French Revolution opposed political freedom deviating old Europe s democratic possibilities toward
the current parties state There exist important theories of the state and of constitution but none that can be called a theory of
democracy Antonio Garc a Trevijano s original theory a modern synthesis of Rousseau s pure democracy and Montesquieu s
political freedom responds to European need for a theory of democracy as a real alternative to the corrupted parties regime
that was engendered by Western pragmatism during the Cold War *Digest; Review of Reviews Incorporating Literary
Digest* ,1897
