human beings It is time for Canadians to embrace internationally recognized ways of thinking and enter an era in which the motor vehicle by product of human carnage is relegated to history No Accident examines problems related to road safety and makes recommendations for the way forward Topics include types of drivers human related driving errors related to fatigue speed alcohol and distraction and roads pedestrians cyclists and public transit road engineering motor vehicle regulation auto safety design and collision avoidance technologies such as radar and camera based sensors on vehicles that prevent crashes This multi disciplinary study demystifies the world of road safety and provides a road map for the next twenty years
