snow house where they should spend a winter The travellers winter on the island and survive mainly due to the ingenuity of Doctor Clawbonny who is able to make fire with an ice lens make bullets from frozen mercury and repel attacks by polar bears with remotely controlled explosions of black powder When the winter ends the sea becomes ice free The travellers build a boat from the shipwreck and head towards the pole Here they discover an island an active volcano and name it after Hatteras With difficulty a fjord is found and the group get ashore After three hours climbing they reach the mouth of the volcano The exact location of the pole is in the crater and Hatteras jumps into it As the sequence was originally written Hatteras perishes in the crater Verne s editor Jules Hetzel suggested or rather required that Verne do a rewrite so that Hatteras survives but is driven insane by the intensity of the experience and after return to England he is put into an asylum for the insane Losing his soul in the cavern of the North Pole Hatteras never speaks another word He spends the remainder of his days walking the streets surrounding the asylum with his faithful dog Duke While mute and deaf to the world Hatteras walks are not without a direction As indicated by the last line Captain Hatteras forever marches northward wikipedia org
