The Last Days Of Europe Epitaph For An Old Continent:

The Last Days of Europe Walter Laqueur, 2025-04-16 In Brussels in 2004 more than 55 percent of the children born were of immigrant parents Half of all female scientists in Germany are childless According to a poll in 2005 more than 40 percent of British Muslims said Jews were a legitimate target for terrorist attacks What happens when a falling birthrate collides with uncontrolled immigration The Last Days of Europe explores how a massive influx from Asia Africa and the Middle East has loaded Europe with a burgeoning population of immigrants many of whom have no wish to be integrated into European societies but make full use of the host nations generous free social services One of the master historians of twentieth century Europe Walter Laqueur is renowned for his gold standard studies of fascism terrorism and anti-Semitism Here he describes how unplanned immigration policies and indifference coinciding with internal political and social crises have led to a continent wide identity crisis Self ghettoization by immigrant groups has caused serious social and political divisions and intense resentment and xenophobia among native Europeans Worse widespread educational failure resulting in massive youth unemployment and religious or ideological disdain for the host country have bred extremist violence as seen in the London and Madrid bombings and the Paris riots Laqueur urges European policy makers to maintain strict controls with regard to the abuse of democratic freedoms by preachers of hate and to promote education productive work and integration among the new immigrants Written with deep concern and cool analysis by a European born historian with a gift for explaining complex subjects this lucid unflinching analysis will be a must read for anyone interested in international politics and the so called clash of civilizations

Europe Since 1980 Ivan T. Berend, 2010-04-08 Recovery and growth

Guillaume Faye and the Battle of Europe Michael O'Meara, 2013 Europe is at war and does not know it She is overrun by invaders from the Global South who seek to replace those who have inhabited her lands for at least the last 30 000 years She is subject to an American overlord whose world system dictates her de Europeanization and globalization She is mismanaged and betrayed by EU technocrats corrupt politicians and plutocratic elites Without a revolutionary mobilization in her defense the thousand year old civilization that grew out of the medieval Respublica Christiana and that we today associate with Europe along with the unique genetic heritage of her peoples will forever cease to exist Guillaume Faye doctorate from one of France's most prestigious schools social philosopher author of numerous books and articles is the Cassandra warning Europeans of their approaching extinction and the need to prepare for the impending Battle of Europe Michael O'Meara Ph D studied social theory at the École des Hautes Études en Sciences Sociales and modern European history at the University of California He is the author of *New Culture New Right Anti Liberalism in Postmodern Europe* 2004

Michel Houellebecq, the Cassandra of Freedom, 2021-11-15 On 7 January 2015 the day of the murderous attack on the offices of the Paris satirical weekly Charlie Hebdo the cover of the current issue showed a drunken Michel Houellebecq in a wizard's cap making two prophecies In 2016 I will lose my teeth In 2022 I will observe Ramadan Houellebecq had previously described Islam as the

stupidest of religions But on that day as terrorists sought to bring the justice of Islam to blasphemers for whom Michel Houellebecq was insufficiently anti Islamic Houellebecq s novel Submission depicting the democratic conquest of France by the Muslim Brotherhood was published by Flammarion In this collection an international cast of authorities on politics and literature discuss the meaning and unprecedented impact of Michel Houellebecq s Submission **Reflections of a Veteran Pessimist** Walter Laqueur,2017-09-29 Having been exposed early in life to the dangers of extreme nationalism journalist and historian Walter Laqueur chose to align his thinking with Victor Hugo s ideal of a European Brotherhood where the European nations would merge into a superior unit overcoming war and strife However as time wore on and consolidating national solidarities seemed ever more impossible Laqueur became more of a pessimist Today he still hopes for unity but doubts that it will ever come to pass This volume represents the culmination of thought of a most noteworthy contemporary historian Reflections of a Veteran Pessimist is divided into four sections Europe in Decline Jews in the Twentieth Century Russia after the Soviet Union and Observations Having lived under the Nazi regime Laqueur is keenly aware of the dangers posed by strident nationalism in Europe and rampant religious zealotry in the Middle East Reflecting on the lingering financial crisis in Europe Laqueur observes its serious consequences populist movements and growing opposition to European integration He notes that the influx of refugees resulting from Middle Eastern instability have sharpened the challenges facing Europe and weakened its unity Laqueur also examines the growth of authoritarian nationalism in Russia and the de facto renewal of the Cold War with the West Offering fascinating insights into a range of themes across the period this book is valuable reading for all those interested in twentieth century European Russian and Jewish history Neoconservative Images of Europe Philipp Scherzer,2022-10-24 While in the last twenty years perceptions of Europe have been subjected to detailed historical scrutiny American images of the Old World have been almost wantonly neglected As a response to this scholarly desideratum this pioneering study analyzes neoconservative images of Europe since the 1970s on the basis of an extensive collection of sources With fresh insight into the evolution of American images of Europe as well as into the history of U S neoconservatism the book appeals to readers familiar and new to the subject matters alike The study explores how beginning in the early 1970s ideas of the United States as an anti Europe have permeated neoconservative writing and shaped their self images and political agitation The choice of periodization and investigated personnel enables the author to refute popular claims that widespread Euro critical sentiment in the United States during the early 21st century considerably ignited by neoconservatives was a distinct post Cold War phenomenon Instead the analysis reveals that the fiery rhetoric in the context of the Iraq War debates was merely the climax of a decade old development *The Palgrave Handbook of EU-Asia Relations* Emil Kirchner,T. Christiansen,K. Jørgensen,Philomena B. Murray,2016-11-09 The Handbook provides a comprehensive range of contributions on the relations between the EU and Asia two regions undergoing significant changes internally yet also developing stronger relations in the context of an emerging multi polar world It collates some 40 contributions from various

disciplines by contributors from throughout the world

Europe Old and New Ray Taras, 2008-07-31 Is Europe indeed uniting or instead falling apart as a result of anti immigrant prejudices a massive Islamic influx and ancient intra European hatreds This innovative and engaging book explores this key question by examining the national and religious phobias and prejudices antipathies and sympathies stereotypes and heterotypes of Europe west and east Considering the sources of Europe s culture based divide Ray Taras argues that the idea of two Europes is grounded both in reality and myth The accession process that brought a dozen new members into the European Union after 2004 highlighted the persisting gulf between old and new Europe While many concrete borders between east and west were removed commercial legal passport regimes many remained absence of a single Euro currency zone labor market and security community Virtual borders too were invented or re imagined the postmaterialist inclusionary tolerant values supposedly found in old Europe versus the materialist nationalistic xenophobic ones of new Europe After reviewing the two Europes contrasting historical legacies Taras examines the EU institutions designed to overcome the historical European divide He considers the treaties political rhetoric citizen attitudes and literary narratives of belonging and separation that both bind and fray the fabric of Europe Throughout this interdisciplinary work provides a comprehensive hard hitting and unabashed review of how enlarged Europe embraces contrasting understandings of its political home and of

who belongs and who does not *The Spread of Islamikaze Terrorism in Europe* Raphael Israeli, 2008 The three major countries of Europe most affected by Muslim immigration and demographic presence are France Britain and Germany who host about half of the total of 30 million Muslims in Europe today This book examines the increasing presence of radical Islam within this Muslim diaspora in Europe and the confusions and divisions within Western governments about how to engage with radical Islam and police its criminal elements It examines the escalating impact of radical Islam in Europe showing the larger picture As a sequel to the author's book on Islamikaze London Frank Cass 2003 which dealt with September 11 and its aftermath this volume will describe the spread and impact of Muslim terrorism in Europe It dwells on the Muslim strategies to expand in Europe through demographic growth and radical education of the youth BOOK JACKET

European Perceptions of Islam and America from Saladin to George W. Bush Peter O'Brien, 2009-02-13 The study unearths in European writings about chief rivals Islamic civilization between the first Crusade in 1095 and the final Ottoman siege of Vienna in 1683 and the United States of America from independence in 1776 until the present persistent solicitude regarding Europe's capacity to lead the world Intriguingly however this very self doubt prompted the kind of intense introspection which helped in the past to forge seismic progressive reform movements such as the Renaissance Reformation and Scientific Revolution that ultimately propelled Europe past a more inward looking Islam and which today may very well be positioning a rapidly transforming Europe Union to counter the hegemony of a seemingly smug America The study concludes that frail if not low self esteem has played a significant role in the formation of European identity

Encyclopedia of Blacks in European History and Culture: A-J Eric Martone, 2009 Blacks have played a significant part in European civilization since ancient times This encyclopedia illuminates blacks in European history literature and popular culture It emphasizes the considerable scope of black influence in and contributions to European culture The first blacks arrived in Europe as slaves and later as laborers and soldiers and black immigrants today along with others are transforming Europe into multicultural states This indispensable set expands our knowledge of blacks in Western civilization

Jewish Affairs, 2007 **Medieval Literature and Postcolonial Studies** Lisa Lampert-Weissig, 2010 Medieval Literature and Postcolonial Studies provides a comprehensive introduction to the field of postcolonial medieval studies and examines the historical connections between postcolonial studies and medieval studies *The Journal of Social, Political, and Economic Studies*, 2007 **Trans-Atlantic Divide** John J. Metzler, 2010-12-13 The trans Atlantic gap between America and Europe widened in the countdown to and in the aftermath of the 2003 Iraq War A vitriolic political standoff concerning Iraq brought severe stress to relations between the Bush Administration and many key Western European allies especially France and Germany creating a chasm of misperceptions deepened by incessant media hype Sadly stereotypes still abound In an atmosphere where trans Atlantic ties are viewed not through the prism of policy but rather through that of emotion where shrill polemical accounts of the USA vs Euroland create a self fulfilling prophecy this book brings back a needed balance to

the debate are the USA and Europe really at odds Trans Atlantic Divide The USA Euroland Rift presents a historical view woven with context infused with informed commentary and presented with clarity The book outlines a contrarian and realistic view that offers a clear common ground for both sides as illustrated in booming business trade and tourism relations between the USA and the EU In spite of the unavoidable diplomatic residue following the Iraq war American relations with Europe remain unquestionably vital for commercial cultural and geo political reasons **The Book Review Digest** ,2007
The Economist ,2007
