Among the several genetic and drug-induced animal models of ADHD available, the inbred Spontaneously Hypertensive Rats (SHR) strain has often been considered the most validated model, since they 'naturally' display the main ADHD symptomatology, including hyperactivity, impulsivity and poorly sustained attention (Russell, 2007, Sagvolden et al., 2005). Although SHR's hyperactivity has been questioned – and almost exclusively appears in response to novelty and in comparison to Wistar-Kyoto rats (Ferguson and Cada, 2003) – the cognitive deficits of SHR have been extensively reported in several behavioral paradigms by our group (Pires et al., 2009, Prediger et al., 2005a, Prediger et al., 2005b) and others (De Bruin et al., 2003, Kantak et al., 2008, Nakamura-Palacios et al., 1996, Sagvolden and Xu, 2008). For this reason, the SHR strain is of interest in the study of neurobiological changes involved in ADHD and for testing of new therapeutic interventions for cognitive dysfunctions (Takahashi et al., 2008). Although different pharmacological approaches have been successfully tested in SHR, and therefore suggested as alternatives for ADHD therapy, relatively little is known about the involvement of environmental factors in ADHD-like symptomatology presented by this rat strain and to what extent 'protective' non-pharmacological factors may be considered as preventive strategies for such behavioral abnormalities.

One potential non-pharmacological approach to neurological disorders is environmental enrichment, which induces beneficial effects against cognitive dysfunctions (Kempermann et al., 1997, van Praag et al., 2000). In a broad sense, environmental enrichment is an experimental paradigm in animals which supposedly parallel physical, social and intellectual activity of humans. These include encouragements to perform physical

Creating Award-Winning History Fair Projects Helen Bass, 2007 Provides information on creating a history fair projects covering such topics as conducting historical research writing historically accurate papers and constructing projects A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition Kate L. Turabian, 2009-08-14 Dewey Bellow Strauss Friedman The University of Chicago has been the home of some of the most important thinkers of the modern age But perhaps no name has been spoken with more respect than Turabian The dissertation secretary at Chicago for decades Kate Turabian literally wrote the book on the successful completion and submission of the student paper Her Manual for Writers of Research Papers Theses and Dissertations created from her years of experience with research projects across all fields has sold more than seven million copies since it was first published in 1937 Now with this seventh edition Turabian's Manual has undergone its most extensive revision ensuring that it will remain the most valuable handbook for writers at every level from first year undergraduates to dissertation writers apprehensively submitting final manuscripts to senior scholars who may be old hands at research and writing but less familiar with new media citation styles Gregory G Colomb Joseph M Williams and the late Wayne C Booth the gifted team behind *The Craft of Research* and the University of Chicago Press Editorial Staff combined their wide ranging expertise to remake this classic resource They preserve Turabian's clear and practical advice while fully embracing the new modes of research writing and source citation brought about by the age of the Internet Booth Colomb and Williams significantly expand the scope of previous editions by creating a guide generous in length and tone to the art of research and writing Growing out of the authors best selling *Craft of Research* this new section provides students with an overview of every step of the research and writing process from formulating the right questions to reading critically to building arguments and revising drafts This leads naturally to the second part of the Manual for Writers which offers an authoritative overview of citation practices in scholarly writing as well as detailed information on the two main citation styles notes bibliography and author date This section has been fully revised to reflect the recommendations of the fifteenth edition of *The Chicago Manual of Style* and to present an expanded array of source types and updated examples including guidance on citing electronic sources The final section of the book treats issues of style the details that go into making a strong paper Here writers will find advice on a wide range of topics including punctuation table formatting and use of quotations The appendix draws together everything writers need to know about formatting research papers theses and dissertations and preparing them for submission This material has been thoroughly vetted by dissertation officials at colleges and universities across the country This seventh edition of Turabian's Manual for Writers of Research Papers Theses and Dissertations is a classic reference revised for a new age It is tailored to a new generation of writers using tools its original author could not have imagined while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian **The History Highway** Dennis A. Trinkle, 1997 The History Highway provides a roadmap to the

burgeoning number of history sites that have sprung up along the information superhighway Presented in a straight forward non technical language this handy reference begins with a brief general introduction to the Internet and an explanation of the software and hardware needed to gain access to it The balance of the book contains an extensive listing and description of individual sites organized and presented within familiar historical categories by period ancient medieval etc by geographical region Africa Asia Europe North America etc and by sub field history of science and technology military history religious history etc The History Highway also includes separate sections listing site sources for maps electronic texts discussion groups newsgroups journals organizations and library archives plus an annotated list of suggested further readings and comprehensive glossary of terms Each site entry contains its title Internet address and a brief description of what can be found at the site The authors have made a careful effort to list sites well over 1000 that are of the highest quality and provide the most useful information Meticulously indexed the book is a valuable tool for researchers history instructors students and history buffs As an added benefit The History Highway authors maintain their own Internet site for updating and additions **Manual of Government Publications, United States and Foreign** Everett Somerville Brown,1964
