Productive failure Alpesh Kantilal Patel, 2017-07-21 This title sets out to write new transnational South Asian art histories to make visible histories of artworks that remain marginalised within the discipline of art history However this is done through a deliberate productive failure specifically by not upholding the strictly genealogical approach that is regularly assumed for South Asian art histories For instance one chapter explores the abstract work of Cy Twombly and Natvar Bhavsar The author examines whiteness the invisible ground upon which racialized art histories often pivot as a fraught yet productive site for writing art history This book also provides original commentary on how queer theory can deconstruct and provide new approaches for writing art history Overall this title provides methods for generating art history that acknowledge the complex web of factors within which art history is produced and the different forms of knowledge production we might count as art history

Changing the Subject Srila Roy, 2022-08-29 In Changing the Subject Srila Roy maps the rapidly transforming terrain of gender and sexual politics in India under the conditions of global neoliberalism The consequences of India's liberalization were paradoxical the influx of global funds for social development and NGOs signaled the co-optation and depoliticization of struggles for women's rights even as they amplified the visibility and vitalization of queer activism Roy reveals the specificity of activist and NGO work around issues of gender and sexuality through a decade long ethnography of two West Bengal organizations one working on lesbian bisexual and transgender issues and the other on rural women's empowerment Tracing changes in feminist governmentality that were entangled in transnational neoliberalism Roy shows how historical and highly local feminist currents shaped contemporary queer and nonqueer neoliberal feminisms The interplay between historic techniques of activist governance and queer feminist governmentality's focus on changing the self offers a new way of knowing feminism both as always already co-opted and as a transformative force in the world
