Work In A Warming World Queen S Policy Studies:

The Politics of Canadian Foreign Policy, Fourth Edition Kim Richard Nossal, Stéphane Roussel, Stéphane Paquin, 2015-12-07 The fourth edition of this widely used text includes updates about the many changes that have occurred in Canadian foreign policy under Stephen Harper and the Conservatives between 2006 and 2015 Subjects discussed include the fading emphasis on internationalism the rise of a new foreign policy agenda that is increasingly shaped by domestic political imperatives and the changing organization of Canada's foreign policy bureaucracy As in previous editions this volume analyzes the deeply political context of how foreign policy is made in Canada Taking a broad historical perspective Kim Nossal Stéphane Roussel and Stéphane Paquin provide readers with the key foundations for the study of Canadian foreign policy They argue that foreign policy is forged in the nexus of politics at three levels the global the domestic and the governmental and that to understand how and why Canadian foreign policy looks the way it does one must look at the interplay of all three

Managing a Canadian Healthcare Strategy A. Scott Carson, 2016-10-20 Canada's fragmented healthcare system is one of the most expensive among the OECD countries yet the quality of its performance is mediocre at best Canada lacks a system wide healthcare strategy that brings together many individual federal provincial and territorial strategies into a comprehensive and coherent whole *Managing a Canadian Healthcare Strategy* is a collection of ten policy research essays by leading Canadian and international scholars who address three important questions First if Canada had a unifying strategy how would the country measure its success and monitor its performance Second who are the agents of change to bring about a Canadian system wide strategy Third how can the jurisdictional realities of Canada's political system be managed to bring about strategic reform The final section in the volume explores ways to overcome the barriers and impediments that preoccupy Canadians concerns about healthcare A companion volume to *Toward a Healthcare Strategy for Canadians* the contributors to *Managing a Canadian Healthcare Strategy* turn to the critical importance of how necessary healthcare changes can be best implemented

Canada: The State of the Federation, 2012 Loleen Berdahl, André Juneau, Carolyn Hughes Tuohy, 2015-07-03 Regional resource disparities and the tensions they generate are a perennial Canadian topic This edition of *Canada: The State of the Federation* presents essays on regions resources and the resiliency of the Canadian federal system Contributors consider questions such as to what extent do Canada's natural resource industries benefit the Canadian economy Do Canada's federal institutions hinder or promote the ability of the economy to respond to global economic shifts Do current intergovernmental structures allow for constructive dialogue about national policy issues In responding to these and related questions many of the authors touch on energy issues Others consider the importance of functional institutions in a federal or multilevel context as an essential requirement for the effective resolution of issues Together the volume raises questions about the relationship of state and society the importance of identity trust and moral legitimacy for the operation of our federal institutions and the extent to which federal institutions are reinforced or placed

under stress by societal structures The theme of this volume was triggered by Richard Simeon the outstanding scholar of federalism who passed away in October 2013 and it is dedicated in his honour **Canada: The State of the Federation 2013** Martin Papillon, André Juneau, 2016-03-01 Traditionally associated with the federal government Aboriginal policy has arguably become a far more complex reality With or without formal self government Aboriginal communities and nations are increasingly assertive in establishing their own authority in areas as diverse as education land management the administration of justice family and social services and housing The 2013 State of the Federation volume gathers experts and practitioners to discuss the contemporary dynamics patterns and challenges of Aboriginal multilevel governance in a wide range of policy areas Recent court decisions on Aboriginal rights notably on the duty to consult have forced provincial and territorial governments to develop more sustained relationships with Aboriginal organizations and governments especially in the management of lands and resources Showing that Aboriginal governance is more than ever a multilevel reality contributors address questions such as What are the challenges in negotiating and implementing these bilateral and trilateral governance agreements Are these governance arrangements conducive to real and sustained Aboriginal participation in the policy process Finally what are the implications of these various developments for Canadian federalism and for the rights and status of Aboriginal peoples in relation to the Canadian federation *World Bank Policy Research Bulletin* World Bank, 1995

and the labour movement need to become involved in the struggle to slow global warming and the ways in which environmental and economic policies need to be linked dynamically in order to effect positive change Addressing the dichotomy of competing public policies in a Canadian context Work in a Warming World presents ways of creating an effective response to global warming and key building blocks toward a national climate strategy The Literary World ,1899
