Worcestershire's War Maggie Andrews, Adrian Gregson, John Peters, 2014-09-15 Capturing the experiences of the people of Worcestershire in the First World War in their own words from prisoners of war to those on the Home Front

How the Pershore Plum Won the Great War Professor Maggie Andrews, Jenni Waugh, 2016-07-04 The First World War was won not just on the battlefields but on the Home Front by the men women and children left behind This book explores the lives of the people of Pershore and the surrounding district in wartime drawing on their memories letters postcards photographs leaflets and recipes to demonstrate how their hard work in cultivating and preserving fruit and vegetables helped to win the Great War Pershore plums were used to make jam for the troops but ensuring these and other fruits and vegetables were grown and harvested required the labour of land girls Boy Scouts schoolchildren Irish labourers and Belgian refugees When submarine warfare intensified food shortages occurred and it became vital for Britain to grow more and eat less food Housewives faced many challenges in feeding their families and so in 1916 the Pershore Women s Institute was formed providing many women with practical help and companionship during some of Britain s darkest hours in history

the ideal volume for students of women's and political history in both its national and international contexts *Women in Agriculture* Linda M. Ambrose, Joan M. Jensen, 2017-03 Taking readers into the rural hinterlands of the rapidly urbanizing societies of the United States Canada Great Britain and the Netherlands the essays in *Women in Agriculture* tell the stories of a cadre of professional women who worked as agricultural researchers producers marketers educators and community organizers and acted to bridge the growing rift between those who grew food and those who only consumed it **Political Women** Maggie Andrews, 2024-05-02 The lives of women changed immeasurably during the twentieth century not just because of technological and economic advances but as a result of a multiplicity of small and large local national and international political campaigns by women The activities of the Edwardian suffrage campaigns are the most well known example of this but in less well known political struggles women fought with equal tenacity sacrifice and inventiveness to demand for example equal pay analgesics for women and childbirth an end to virginity testing at airports or wages for housework This book focuses on 15 such campaigns and the thousands of women who sought to influence decision making exercise and challenge power in the twentieth century These political activities were sometimes small scale and short lived or seemingly unsuccessful but together they helped to bring about immeasurable changes in women's lives during the twentieth century With limited financial resources and hefty domestic responsibilities women have often chosen to pick their political battles very carefully Some fought for workers rights or the right to education some prioritised stopping male violence on the streets in the home or between nations others like Radcliffe Hall campaigned so women could define their own sexuality Women organised self help childcare rape crisis centres and peace camps They set up birth control clinics and women's refuges Ordinary women took on exploitive landlords immigration officers international companies local councils the media and successive governments A few of the hundreds of thousands of these political women like Maggie Wintringham and Nancy Astor were MPs others became local councillors However women's access to traditional areas of political power was limited even when Britain had its first woman prime minister in 1979 she was one of only 19 women MPs in parliament Consequently women sought other spheres of activity through which to fight for change using all the resources and imagination at their disposal to challenge injustice and abuse They employed deeds and words petitions and protests legal and illegal devices peaceful and violent strategies to further their political aims Their motivations and contributions were varied many made sacrifices to be involved in political battles but this book seeks to celebrate some of these unsung heroines who tried to make a difference *Music, Religion and Politics at Worcester Cathedral, 680-1950* Richard Newsholme, 2025-03-17 This book provides a comprehensive history of music and liturgy at Worcester Cathedral from its foundation in the seventh century to the mid 20th century The author delves into how political shifts public opinion and national trends have influenced changes in the cathedral's practices over time while also highlighting the distinct local dynamics at play The book captures the fluctuating significance of liturgy and music across different eras from the strict

ritualistic practices of Benedictine monks to the rejection of ceremonial traditions by Interregnum Non Conformists. It traces how the form of worship evolved in response to the beliefs of church leaders leading to periods of decline and revival in the cathedral's musical standards. Notably the study explores Worcester's role in the development of British polyphony up to the 14th century and the comforting role of the choir during World War I. With a wealth of surviving Anglo Saxon charters, medieval liturgical manuscripts and unique polyphonic fragments, this volume offers rare insights into centuries-old practices. While it focuses on Worcester, the study reflects broader trends in English cathedral history, providing a vital resource for understanding the interplay of music, religion, and politics in the evolution of worship.

War Monuments, Museums and Library Collections of 20th Century Conflicts Steve Rajtar, Frances Elizabeth Franks, 2015-07-11. This unique state-by-state directory covers monuments, memorials, museums, markers, statues, and library collections that relate to the veterans' weapons, vehicles, airplanes, victims, or any other aspect of war in which the United States participated. While a site may have been created before 1900, such as a fort, there must be some operational or historical tie to a twentieth-century conflict to be included here. General collections such as museums of aviation are included if they house materials related to a twentieth-century conflict. The coverage is so thorough that statues honoring veterans of the Civil War appear if veterans of later wars are on their rosters of honorees. Another example of the comprehensiveness of this compilation is in the inclusion of memorials to victims of war such as the Holocaust Museum in Houston, Texas. For each site, the following information is given: street address, phone number, website, and email address if applicable; days and hours of operation; admission fees; other necessary information; and a brief description of the site.

Hidden History of Worcester Dave Kovalski, 2021-10-18. As the second largest city in New England, Worcester is well known for its contributions to manufacturing and transportation. However, many other people and events contributed to the building of this city. Timothy Bigelow led a revolution to take back Worcester from British rule almost two years before the Declaration of Independence. Abby Kelley Foster helped establish the first national women's rights convention in Worcester and was a leading voice against slavery. The city was also home to one of the nation's first professional baseball teams, the Worcester Brown Stockings. Join local author Dave Kovalski as he reveals the stories behind revolutionaries, reformers, and pioneers from the Heart of the Commonwealth.

Life after Tragedy Michael W. Brierley, Georgia A. Byrne, 2018-01-01. Much has been written on the centenary of the First World War, however, no book has yet explored the tragedy of the conflict from a theological perspective. This book fills that gap. Taking their cue from the famous British army chaplain Geoffrey Studdert Kennedy, seven central essays, all by authors associated with the cathedral where Studdert Kennedy first preached, examine aspects of faith that featured in the war, such as the notion of home, poetry, theological doctrine, preaching, social reform, humanitarianism, and remembrance. Each essay applies its reflections to the life of faith today. The essays thus represent a highly original contribution to the history of the First World War in general and the work of Studdert Kennedy in particular, and they provide wider theological insight into

how in the contemporary world life and tragedy God and suffering can be integrated The book will accordingly be of considerable interest to historians both of the war and of the church to communities commemorating the war and to all those who wrestle with current challenges to faith A foreword by Studdert Kennedy s grandson and an afterword by the bishop of Magdeburg in Germany render this a volume of remarkable depth and worth *First Reunion of the Sons of Vermont, at Worcester, Mass., February 10th, 1874* Sons of Vermont (Worcester, Mass.),1874 *History of Worcester and Its People* Charles Nutt,1919 *History of Worcester County, Massachusetts, Embracing a Comprehensive History of the County from Its First Settlement to the Present Time, with a History and Description of Its Cities and Towns* ,1879 **Walker's Pronouncing Dictionary of the English Language: with Webster's Definitions and Worcester's Improvements** John Walker (the Philologist.),1872 **Picturesque Worcester ...: City and environments** Elbridge Kingsley,Frederick Knab,1895 **The Parker Society...: Works of John Hooper, bp of Gloucester and Worcester** Parker Society (Great Britain),1852 *History of Worcester in the War of the Rebellion* Abijah Perkins Marvin,1870 This history was designed to embrace the life of Worcester at home and in the field during the entire period of the war **First Fruits of Freedom** Janette Thomas Greenwood,2010-03-01 A moving narrative that offers a rare glimpse into the lives of African American men women and children on the cusp of freedom First Fruits of Freedom chronicles one of the first collective migrations of blacks from the South to the North during and after the Civil War Janette Thomas Greenwood relates the history of a network forged between Worcester County Massachusetts and eastern North Carolina as a result of Worcester regiments taking control of northeastern North Carolina during the war White soldiers from Worcester a hotbed of abolitionism protected refugee slaves set up schools for them and led them north at war s end White patrons and a supportive black community helped many migrants fulfill their aspirations for complete emancipation and facilitated the arrival of additional family members and friends Migrants established a small black community in Worcester with a distinctive southern flavor But even in the North white sympathy did not continue after the Civil War Despite their many efforts black Worcesterites were generally disappointed in their hopes for full fledged citizenship reflecting the larger national trajectory of Reconstruction and its aftermath *Federal Communications Commission Reports* United States.
