Rethinking Rhetorical Theory, Criticism, and Pedagogy Antonio de Velasco, John Angus Campbell, David Henry, 2016-10-01 What distinguishes the study of rhetoric from other pursuits in the liberal arts From what realms of human existence and expression of human history does such study draw its defining character What in the end should be the purposes of rhetorical inquiry And amid so many competing accounts of discourse power and judgment in the contemporary world how might scholars achieve these purposes through the attitudes and strategies that animate their work Rethinking Rhetorical Theory Criticism and Pedagogy The Living Art of Michael C Leff offers answers to these questions by introducing the central insights of one of the most innovative and prolific rhetoricians of the twentieth century Michael C Leff This volume charts Leff's decades long development as a scholar revealing both the variety of topics and the approach that marked his oeuvre as well as his long standing critique of the disciplinary assumptions of classical Hellenistic renaissance

modern and postmodern rhetoric Rethinking Rhetorical Theory Criticism and Pedagogy includes a synoptic introduction to the evolution of Leff's thought from his time as a graduate student in the late 1960s to his death in 2010 as well as specific commentary on twenty-four of his most illuminating essays and lectures *Close Listening* Charles Bernstein, 1998-04-30

Close Listening brings together seventeen strikingly original essays especially written for this volume on the poetry reading the sound of poetry and the visual performance of poetry While the performance of poetry is as old as poetry itself critical attention to modern and postmodern poetry performance has been surprisingly slight This volume featuring work by critics and poets such as Marjorie Perloff Susan Stewart Johanna Drucker Dennis Tedlock and Susan Howe is the first comprehensive introduction to the ways in which twentieth century poetry has been practiced as a performance art From the performance styles of individual poets and types of poetry to the relation of sound to meaning from historical and social approaches to poetry readings to new imaginations of prosody the entries gathered here investigate a compelling range of topics for anyone interested in poetry Taken together these essays encourage new forms of close listenings not only to the printed text of poems but also to tapes performances and other expressions of the sounded and visualized word The time is right for such a volume with readings spoken word events and the Web gaining an increasing audience for poetry *Close Listening* opens a number of new avenues for the critical discussion of the sound and performance of poetry **"Is It Easy Being Green?"** Justin Nevin, 2014-09-18

More and more universities and colleges are looking beyond grade point averages and standardized test scores to choose their incoming freshman What criteria do these institutions of higher education use as their litmus test the college application essay But will your average high school essay do the job When competing against thousands of qualified candidates a college applicant needs more than an introduction three paragraphs and a conclusion in their writer's tool belt they need the skills to stand out from the crowd *Is It Easy Being Green Writing the NEW College Application Essay* offers every applicant the skills needed to write a powerful and successful application essay Using real life examples and testimonials *Is It Easy Being Green* moves away from a strictly academic point of view and uses creative writing techniques memoir personal essay genre in particular to teach students how to write engaging and effective application essays Centering on a narrative and lyrical balance *Is It Easy Being Green* is written in an approachable and easy to understand style **Socializing Minds** Martin Lenz, 2022

How do minds depend on other minds One answer to this question is that they depend on another in the way they are that is their being and their states are explained in virtue of their relation to other minds What does this mean For a first approximation you might imagine that the mental states in your mind are incomplete A decision you make or a conclusion you draw for instance might not arise from your own thoughts but from other people's minds In that sense one might assume that one's mind is only partly one's own mind Since Spinoza opts for such an explanation I will call his approach a metaphysical model of intersubjectivity *The Writer*, 1921 **Close Reading and Its Alternatives** Mun-Hou Lo, 2025-11-20

Close Reading and Its Alternatives provides an up to date and

consolidated history of the literary and analytical technique and philosophy of close reading It offers an essential guide to the features and genealogies of close reading and how it intersects with literary theories like feminist criticism queer theory cultural studies digital humanities game studies and more Divided into five parts the book contains 21 influential essays on close reading and on alternative methods that have arisen in the past few decades These primary texts are contextualized by and analyzed in six original and insightful introductions These works combine to trace the invention of close reading around the time of New Criticism The book then shows how close reading evolved when it is taken up by poststructuralist thought such as Marxism deconstruction and New Historicism Turning to the twenty first century the volume explores the rise of the critiques of close reading that are distinguished by their attempts to offer alternative methods distant reading reparative reading just and surface reading and thin description and too close reading Close reading is inescapably central in the field of literary studies and beyond This comprehensive resource will enhance understanding and enrich the reading experience of students and teachers of literature

Professing Criticism John Guillory, 2022-12-30 A sociological history of literary study both as a discipline and as a profession As the humanities in higher education struggle with a labor crisis and with declining enrollments the travails of literary study are especially profound No scholar has analyzed the discipline's contradictions as authoritatively as John Guillory In this much anticipated new book Guillory shows how the study of literature has been organized both historically and in the modern era both before and after its professionalization The traces of this volatile history he reveals have solidified into permanent features of the university Literary study continues to be troubled by the relation between discipline and profession both in its ambivalence about the literary object and in its anxious embrace of a professionalism that betrays the discipline's relation to its amateur precursor criticism In a series of timely essays *Professing Criticism* offers an incisive explanation for the perennial churn in literary study the constant revolutionizing of its methods and objects and the permanent crisis of its professional identification It closes with a robust outline of five key rationales for literary study offering a credible account of the aims of the discipline and a reminder to the professoriate of what they already do and often do well
