		Toxic Substance	1m	1m	1m	1m	1m	1m	1m	1m	1m	Isolate	1m	1m
		Corrosive	1m	1m	1m	1m	1m	May not be compatible check SDS & notes	1m	1m	1m	1m	1m	May not be compatible check SDS & notes

GUIDELINES

- In all cases the manufacturer SDS should be consulted.
- Combustible liquids shall be segregated in the same manner as Class 3 Flammables.
- Do not store "Dangerous when wet" chemicals in areas with water suppression systems i.e. sprinklers.
- Contact with flammables or combustible substance causes vigorous oxidation reactions resulting in spontaneous heat production and possible fire/explosion.

ISOLATE

This requirement refers to organic peroxides, for which dedicated stores or storage cabinets are recommended. Adequate separation from other laboratories/buildings/structures is required.

May not be compatible with its own class. Refer to manufacturer's SDS.

SEGREGATE

A distance of ≥ 3.0 m is required between chemical storage cabinets where the aggregate capacity is ≥ 250 kg or L.

If the aggregate capacity is ≥ 250 kg or L cabinets must be 10m apart or have a fire rated wall in between them.

For other Dangerous goods external to cabinets, the distance is measured from the edge of the spill containment area. Consult SDS for specifications.

Workcover Dangerous Goods Guidelines

**New South Wales. Department of
Industrial Relations**

Workcover Dangerous Goods Guidelines:

Guidelines for Process Safety Acquisition Evaluation and Post Merger Integration CCPS (Center for Chemical Process Safety), 2013-11-13 It is crucial for process safety professionals to be aware of best practices for post merger integration at any level A compilation of industry best practices from both technical and financial perspectives this book provides a single reference that addresses acquisitions and merger integration issues related to process safety Presently there are limited references on how to handle acquisitions in several different CCPS publications and almost no coverage of the post merger integration issue so this reference fills a notable gap in the coverage **Human Resource Management**

Charmine E.J. Härtel, Yuka Fujimoto, 2014-10-01 Human Resources Management 3rd edition is an all inclusive resource packed full of Australian examples quality pedagogical features and cutting edge theories It provides an excellent balance of practical teaching and the underlying theory of HRM which helps students understand what HR actually is rather than just how to practice it The text facilitates the development of critical and innovative thinking allowing readers to make Co adaptive Human Resource Management CHRM decisions in the light of the diverse features of any given business and its operating environment *Design and Technology* Deborah Trevallion, 2003 Australian Master OHS and Environment Guide, 2007 The first point of reference for all OHS and environmental best practice and strategy providing operational guidance with examples to achieve optimal workplace safety and environmental sustainability **The Paradox of**

Regulation Fiona Haines, 2011-01-01 The Paradox of Regulation is a tour de force of regulatory scholarship that successfully contextualizes the regulatory project as an effort to reduce multiple forms of risk Three case studies of regulatory reforms fascinating in their own right when read together forcefully demonstrate why context matters to the actuarial assessments political realities and possibilities for insuring safety security and integrity Haines penetrating analysis presents no simple answers to what works and why The Paradox of Regulation nimbly demonstrates that the strengths and limits of a particular regulatory reform must be understood as a complicated response to a dynamic constellation of actuarial political and socio cultural risks Nancy Reichman University of Denver US This new book by Fiona Haines is an elegant but sophisticated analysis of the three risks technical social and political that regulation must address if it is to be effective This analysis is original and fresh bringing together critiques of risk based regulation with empirical literature on compliance and effectiveness evaluation This is exactly the sort of book we need more of to develop and deepen empirical and theoretical research in regulatory scholarship it helpfully melds together different literatures and theoretical approaches with her own empirical work on regulatory reforms to build a multi layered theoretical analysis that really pushes forward our understanding of regulation why it happens and how it fails and succeeds Christine Parker Monash University Australia This is an insightful and nuanced analysis of the strengths and limitations of regulation Through a close grained analysis of three recent disasters Haines demonstrates that regulation is not just a technical but also a political and a social project and how a

failure to recognise its multiple dimensions can lead to regulatory failure This book is a major contribution that enriches our understanding of the challenges of risk management and of how best to address them Neil Gunningham Australian National University Canberra Fiona Haines shows us that regulatory policy is complex and paradoxical in ways that should require us to attend to the substance and the politics of specific regulatory regimes This book is a major contribution to the reconceptualisation of risk and regulation It is a perceptive treatment of the role of crisis by one of the best scholars of regulation we have John Braithwaite Australian National University Canberra

Farming Ahead with the Kondinin Group ,2005 **Workplace Issues** ,2000 *Grapevine Management Guide* ,2000 Real Estate Development in New South Wales ,1994 *Decision Making* Alan C.
