**A Community of One** Martin A. Danahay,1993-08-24 Complementing recent feminist studies of female self representation this book examines the dynamics of masculine self representation in nineteenth century British literature Arguing that the category autobiography was a product of nineteenth century individualism the author analyzes the dependence of the nineteenth century masculine subject on autonomy or self naming as the prerequisite for the composition of a life history The masculine autobiographer achieves this autonomy by using a feminized other as a metaphorical mirror for the self The feminized other in these texts represents the social cost of masculine autobiography Authors from Wordsworth to Arnold including Samuel Taylor Coleridge Thomas De Quincey John Ruskin Alfred Tennyson Robert Louis Stevenson John Stuart Mill and Edmund Gosse use female lovers and family members as symbols for the community with which they feel they have lost contact In the theoretical introduction the author argues that these texts actually privilege the

autonomous self over the images of community they ostensibly value creating in the process a self enclosed and self referential community of one      *The New York Times Theatre Reviews 1999-2000* New York Times Theater Reviews,2001-12

S. Eliot Craig Raine,2011-09-01 The winner of the Nobel Prize for Literature the twentieth century s most famous poet and its most influential literary arbiter T S Eliot has long been thought to be an obscure and difficult poet forbiddingly learned maddeningly enigmatic Now in this brilliant exploration of T S Eliot s work prize winning poet Craig Raine reveals that on the contrary Eliot s poetry and drama and criticism can be seen as a unified and coherent body of work Indeed despite its manifest originality its radical experimentation and its dazzling formal variety his verse yields meaning just as surely as other more conventional poetry Raine argues that an implicit controlling theme the buried life or the failure of feeling unfolds in surprisingly varied ways throughout Eliot s work But alongside Eliot s desire to live with all intensity was also a distrust of violent emotion for its own sake Raine illuminates this paradoxical Eliot an exacting anti romantic realist skeptical of the emotions yet incessantly troubled by the fear of emotional failure through close readings of such poems as *The Love Song of J Alfred Prufrock* *Gerontion* *The Hollow Men* *Ash Wednesday* and many others The heart of the book contains extended analyses of Eliot s two master works *The Waste Land* and *Four Quartets* Raine also examines Eliot s criticism including his coinage of such key literary terms as the objective correlative dissociation of sensibility the auditory imagination and he concludes with a convincing refutation of charges that Eliot was an anti Semite Here then is a volume absolutely indispensable for all admirers of T S Eliot and in fact for everyone who loves modern literature      **Look Forward, Angel** Thomas Wolfe,1958
