Visual Experiences in Cinquecento Theatrical Spaces Jimena Berzal de Dios,2019-01-02 Through an interdisciplinary examination of sixteenth century theatre Visual Experiences in Cinquecento Theatrical Spaces studies the performative aspects of the early modern stage paying special attention to the overlooked complexities of audience experience Examining the period s philosophical and aesthetic ideas about space place and setting the book shows how artists consciously moved away from traditional representations of real spaces on stage instead providing their audiences with more imaginative and collaborative engagements that were untethered by strict definitions of naturalism In this way the book breaks with traditional interpretations of early modern staging techniques arguing that the goal of artists in this period was not to cater to a single privileged viewer through the creation of a naturalistically unified stage but instead to offer up a complex multimedia experience that would captivate a diverse assembly of theatre goers **Props** Eleanor Margolies,2017-09-16 This diverse book brings together theoretical and practical viewpoints on objects in performance how they can be part of theatre scenery equal partners in performance or autonomous things Through close analysis of specific performances Eleanor Margolies examines actor training scenography materials construction techniques and object theatre The text investigates a number of critical questions including what the difference is between a theatre prop and an everyday object how audiences respond to the various ways that props are used by actors and designers and whether devising with stuff affect the making process or the attitudes to materiality embodied in performance With discussions of papier m ch and collapsing chairs fake food and stage blood Props is an essential sourcebook for students practitioners and researchers of theatre design and prop making Artificial Darkness Noam M. Elcott,2016-05-30 This ambitious study explores how important darkness artificial darkness was as an actual technology in producing not just photographs but visual novelties and

experiments in cinema in the nineteenth century The study plays out against a backdrop of urban history where most scholars have focused on the growth of artificial light and the electrification of cities Elcott s study challenges that approach In considering zones of darkness it ranges from the sites of production darkrooms studios to those of reception theaters cinemas arcades that shaped modern media and perceptions He argues that in the nineteenth century the avant garde was often less interested in the filmed image than in everything surrounding it the screen the projected light the darkness the experience of disembodiment He argues that darkness has a history separate from night evil or the color black and has a specifically modern manifestation as a media technology We are all aware of the velvet light trap in photography but at the heart of this book are technologies of darkness crucial to cinema that were commonly known as the black screen but have over time faded from the storied discourse **The Art of Light on Stage** Yaron Abulafia,2015-07-16 The Art of Light on Stage is the first history of theatre lighting design to bring the story right up to date In this extraordinary volume award winning designer Yaron Abulafia explores the poetics of light charting the evolution of lighting design against the background of contemporary performance The book looks at the material and the conceptual the technological and the transcendental Never before has theatre design been so vividly and excitingly illuminated The book examines the evolution of lighting design in contemporary theatre through an exploration of two fundamental issues 1 What gave rise to the new directions in lighting design in contemporary theatre 2 How can these new directions be viewed within the context of lighting design history The study then focuses on the phenomenological and semiotic aspects of the medium for light the role of light as a performer as the medium of visual perception and as a stimulus for imaginative representations in selected contemporary theatre productions by Robert Wilson Romeo Castellucci Heiner Goebbels Jossi Wieler and David Zinder This ground breaking book will be required reading for anyone concerned with the future of performance *Museum Making* Suzanne Macleod,Laura Hourston Hanks,Jonathan Hale,2012-03-15 Over recent decades many museums galleries and historic sites around the world have enjoyed an unprecedented level of large scale investment in their capital infrastructure in building refurbishments and new gallery displays This period has also seen the creation of countless new purpose built museums and galleries suggesting a fundamental re evaluation of the processes of designing and shaping of museums Museum Making Narratives Architectures Exhibitions examines this re making by exploring the inherently spatial character of narrative in the museum and its potential to connect on the deepest levels with human perception and imagination Through this uniting theme the chapters explore the power of narratives as structured experiences unfolding in space and time as well as the use of theatre film and other technologies of storytelling by contemporary museum makers to generate meaningful and it is argued here highly effective and affective museum spaces Contributions by an internationally diverse group of museum and heritage professionals exhibition designers architects and artists with academics from a range of disciplines including museum studies theatre studies architecture design and history cut across traditional boundaries

including the historical and the contemporary and together explore the various roles and functions of narrative as a mechanism for the creation of engaging and meaningful interpretive environments *Shakespeare Dwelling* Julia Reinhard Lupton,2018-04-06 Great halls and hovels dove houses and sheepcotes mountain cells and seaside shelters these are some of the spaces in which Shakespearean characters gather to dwell and to test their connections with one another and their worlds Julia Reinhard Lupton enters Shakespeare s dwelling places in search of insights into the most fundamental human problems Focusing on five works Romeo and Juliet Macbeth Pericles Cymbeline and The Winter s Tale Lupton remakes the concept of dwelling by drawing on a variety of sources including modern design theory Renaissance treatises on husbandry and housekeeping and the philosophies of Hannah Arendt and Martin Heidegger The resulting synthesis not only offers a new entry point into the contemporary study of environments it also shows how Shakespeare s works help us continue to make sense of our primal creaturely need for shelter *Beyond Text* Jennifer Buckley,2019-10-09 Taking up the work of prominent theater and performance artists Beyond Text reveals the audacity and beauty of avant garde performance in print With extended analyses of the works of Edward Gordon Craig German expressionist Lothar Schreyer the Living Theatre Carolee Schneemann and Guillermo G mez Pe a the book shows how live performance and print aesthetically revived one another during a period in which both were supposed to be in a state of terminal cultural decline While the European and American avant gardes did indeed dismiss the dramatic author they also adopted print as a theatrical medium altering the status form and function of text and image in ways that continue to impact both the performing arts and the book arts Beyond Text participates in the ongoing critical effort to unsettle conventional historical and theoretical accounts of text performance relations which have too often been figured in binary chronological from page to stage or hierarchical terms Across five case studies spanning twelve decades Beyond Text demonstrates that print as noun and verb has been integral to the practices of modern and contemporary theater and performance artists **Staging, Playing, Pyrotechnics and Magic: Conventions of Performance in Early English Theatre** Philip Butterworth,2022-02-07 In this selection of research articles Butterworth focuses on investigation of the practical and technical means by which early English theatre from the fifteenth to the early seventeenth century was performed Matters of staging for both pageant vehicle and theatre in the round are described and analysed to consider their impact on playing by players expositors narrators and prompters All these operators also functioned to promote the closely aligned disciplines of pyrotechnics and magic legerdemain or sleight of hand which also influence the nature of the presented theatre The sixteen chapters form four clearly identified parts staging playing pyrotechnics and magic and drawing on a wealth of primary source material Butterworth encourages the reader to rediscover and reappreciate the actors magicians wainwrights and wheelwrights pyrotechnists and in modern terms the special effects people and event managers who brought these early texts to theatrical life on busy city streets and across open arenas The chapters variously explore and analyse the important backwaters of material culture that enabled

facilitated and shaped performance yet have received scant scholarly attention It is here among the itemised payments to carpenters and chemists the noted requirements of mechanics and wheelwrights or tucked away among the marginalia of suppliers of staging and ingenious devices that Butterworth has made his stamping ground This is a fascinating introduction to the very nuts and bolts of early theatre Staging Playing Pyrotechnics and Magic Conventions of Performance in Early English Theatre is a closely argued celebration of stagecraft that will appeal to academics and students of performance theatre history and medieval studies as well as history and literature more broadly It constitutes the eighth volume in the Routledge series Shifting Paradigms in Early English Drama Studies and continues the valuable work of that series of which Butterworth is a general editor in bringing significant and expert research articles to a wider audience CS 1105 *Costume* Ali Maclaurin,Aoife Monks,2018-03-17 Focussing on costume in performance this reader brings together key texts case studies and interviews Exploring costume s role and function in a variety of theoretical historical conceptual and practical contexts this exciting volume also reflects on the broader relationship between costume and visual culture throughout
