The Blumenschein Murders:

Ernest L. Blumenschein Robert W. Larson, Carole B. Larson, 2013-05-07 Few who appreciate the visual arts or the American Southwest can behold the masterpieces Sangre de Cristo Mountains or Haystack Taos Valley 1927 or Bend in the River 1941 and come away without a vivid image burned into memory The creator of these and many other depictions of the Southwest and its people was Ernest L Blumenschein cofounder of the famous Taos art colony This insightful comprehensive biography examines the character and life experiences that made Blumenschein one of the foremost artists of the twentieth century Robert W Larson and Carole B Larson begin their life of Blumenschein with his Ohio childhood and trace his development as an artist from early study in Cincinnati New York City and Paris through his first career as a book and magazine illustrator Blumenschein and artist Bert G Phillips discovered the budding art community of Taos New Mexico in 1898 In 1915 the two along with Joseph Henry Sharp E Irving Couse and other like minded artists organized the Taos Society of Artists famous for preferring American subjects over European themes popular at the time Leaving illustration work behind Blumenschein sought a distinctive place in his American homeland and in fine art painting He moved with his family to Taos in 1919 and began his long career as a figurative and landscape painter becoming prominent among American artists for his Pueblo Indian figures and stunning southwestern landscapes Robert Larson calls Blumenschein a transformational artist trained classically but drawing to a limited degree on abstract representation Placing Blumenschein's life in the context of World War I the Great Depression and other national and world events the authors show how an artistic genius turned a fascination with the people light and color of New Mexico into a body of work of lasting significance to the international art world *The Unforgettables* Charles C. Eldredge, 2022-11-01 Eminent art historian Charles C Eldredge brings together top scholars to celebrate forgotten artists and create a more inclusive history of American art Why do some artists become canonical while others equally respected in their time fall into obscurity This question is central to *The Unforgettables* a vibrant collection of essays by leading experts on American art Each contributor presents a brief for an artist deserving of new or renewed attention including artists from the colonial era to recent years working in a wide variety of mediums Histories of American art have traditionally highlighted the work of a familiar roster of artists largely white and male The achievements of their peers notably women and artists of color have gone uncelebrated The essays in this volume provide a new and richer understanding of American art expanding the canon to include many worthy talents A number of these artists were acclaimed in their day others having missed that acclaim may achieve it now With contributions from major scholars and museum professionals *The Unforgettables* rescues and revises reputations as it enhances and enriches the history of American art

In Contemporary Rhythm Peter H. Hassrick, Elizabeth J. Cunningham, Ernest Leonard Blumenschein, 2008 The definitive retrospective on Ernest L Blumenschein 1874 1960 one of the founders of the Taos Society of Artists and perhaps the most accomplished of all the painters associated with that organization Reproducing masterworks from a new exhibit

along with additional works and historical photographs this volume forms the most comprehensive assemblage of his paintings ever published **More Molecules of Murder** John Emsley, 2017-06-23 How can a plant as beautiful as the foxglove be so deadly and yet for more than a century be used to treat heart disease The same is true of other naturally occurring molecules as will be revealed in this current book by award winning author and chemist John Emsley **More Molecules of Murder** follows on from his highly acclaimed earlier book **Molecules of Murder** and again it deals with 14 potential poisons seven of which are man made and seven of which are natural It investigates the crimes committed with them not from the point of view of the murderers their victims or the detectives but from the poison used In so doing it throws new light on how these crimes were carried out and ultimately how the perpetrators were uncovered and brought to justice Each chapter starts by looking at the target molecule itself its discovery its chemistry its often surprising use in medicine its effects on the human body and its toxicology The rest of the chapter is devoted to murders and attempted murders in which it has been used But be reassured that murder by poison is not the threat it once was thanks to laws which restrict access to such materials and to the skills of analytical chemists in detecting their presence in incredibly tiny amounts

Americans the people living in northern Mexico in 1846 during the onset of the Mexican American War The war abruptly came to an end two years later and 115 000 Mexicans became American citizens overnight Yet their status as full fledged Americans was tenuous at best Due to a variety of legal and political maneuvers Mexican Americans were largely confined to a second class status How did this categorization occur and what are the implications for modern Mexican Americans

Manifest Destinies fills a gap in American racial history by linking westward expansion to slavery and the Civil War In so doing law and sociology professor Laura E G mez demonstrates how white supremacy structured a racial hierarchy in which Mexican Americans were situated relative to Native Americans and African Americans alike Steeped in conversations and debates surrounding the social construction of race this book reveals how certain groups become racialized and how racial categories can not only change instantly but also the ways in which they change over time This second edition is updated to reflect the most recent evidence regarding the ways in which Mexican Americans and other Latinos were racialized in both the twentieth and early twenty first centuries The book ultimately concludes that it is problematic to continue to speak in terms of Hispanic ethnicity rather than consider Latinos qua Latinos alongside the United States other major racial groupings A must read for anyone concerned with racial injustice and classification today

Re-imagining the Modern American West Richard W. Etulain,1996-09 Describes changes in how the West has been seen from a male dominated frontier to a region with a powerful sense of place to a modern center of both genders ethnic groups and environmental interests

The Great Illustrators of Edgar Allan Poe Tony Magistrale,Jessica Slayton,2021-05-11 Although there have been over 700 illustrators of Poe s work over the past two centuries this book chooses to examine only the best of them Beginning with the French in the nineteenth century and tracing the great illustrators of Poe to the present this book not only provides close analyses of individual visualizations but also seeks to supply an art history context to understanding their emergence The majority of the artists featured remain unknown even to Poe scholars although their artwork represents iterations inspired by the most famous of Poe s poems and stories In some cases the illustrations helped increase the visibility of particular Poe works and to make them part of the international Poe canon A few of the illustrators featured in this book e g Manet Dor Redon Beardsley are recognized among the most famous artists in the world Others such as Martini and Blumenschein while remaining minor figures in art history nevertheless produced immortal work based on Poe s fiction and poetry While still other visual artists represented here Rackham Dulac Clarke achieved artistic fame as book illustrators based on homages to other writers and fairy tales in combination with their Poe studies their work on Poe however helped to solidify their larger reputations as professional illustrators The last chapter extends traditional visualizations influenced by Poe to include his impact on twentieth and twenty first century filmmakers and cartoonists They too found in Poe s writing either a source for direct re creation or an inspiration for their own atmospheric excursions into the bizarre the exotic and the psychologically complex
