

The size of the screen is misleading—this is not a laptop.

So exactly where does a palmtop end and a laptop begin?

Introducing the HP 320LX palmtop PC. With a 640 x 240 VGA screen, it's the widest of any hand-held PC. Six inches. And it's the first palmtop with Microsoft® Windows® CE and a built-in CompactFlash card slot for removable memory storage. You can pull the 4MB HP 320LX palmtop PC from your pocket and instantly check and send e-mail, hop on the Internet, print with the infrared connection or consult your calendar—all without lugging around a laptop. An energy-saving backlit screen allows hours of operation, and the standard docking cradle lets you easily synchronize your Windows CE applications with their Windows 95 and Windows® NT counterparts.
