New Deal Medicine Michael R. Grey, 2002-05-24 In New Deal Medicine physician and historian Michael Grey brings to light the diversity reach and complexity of the medical care programs of the Farm Security Administration Drawing on oral histories archival records and medical journals from the 1930s and 1940s Grey finds the programs were both a rehearsal for more modern forms of medical organization and a lightning rod for critics of socialized medicine He assesses the compromises made to try to preserve the programs somewhat secret objective of providing the poor with health care while not running afoul of conservative politicians and their colleagues in the AMA Acknowledging the effect of changing demographics doctors nurses and farmers alike marched off to war and economics Grey contends that these factors do not fully explain the demise of the FSA experiment in health care Rather the political winds shifted at the same time that the medical profession acted to protect its authority over the practice of medicine New Deal Medicine shows that by the peculiarly American style of incrementalism many of the FSA medical care structures and goals have been at least partially realized in the United States and in Canada The lessons learned by the FSA personnel were transferred into health programs in Canada in the labor

unions and finally in Lyndon Johnson's Great Society Employee Benefits Cases, 2009 *Administrative Law* Steven J. Cann, 2005-08-11 In this new edition author Steven J. Cann once again enlivens the topic of United States administrative law through the use of recent and classic legal cases to make it accessible and interesting to students. *Administrative Law* Fourth Edition is an engaging casebook that presents a unique problem-solving framework that contrasts democracy with the administrative state. This novel approach places the often complex subject matter of U.S. administrative law into a more comprehensible context. The Fourth Edition has been completely updated and revised and includes many new cases to reflect changes in the law since the year 2000. Each chapter begins with an interesting case that introduces key concepts followed by a summary of the principles, doctrines, and legal tests used by the courts in that area of administrative law. New cases in the Fourth Edition include *Norton v. Southern Utah Wilderness Alliance* (2004), President Bush's Secretary of Interior made a decision to allow off-road vehicles in wilderness areas; *Pennsylvania State Police v. Suders* (2004), This is the Supreme Court's most recent sexual harassment case; *Correctional Services Corporation v. Malesko* (2001), Correctional Services Corporation is a private company that contracts with the federal government to run halfway houses. An employee's reckless disregard caused the plaintiff to have another heart attack; *Whitman v. American Trucking Association* (2001), The case involves the EPA's enforcement of the Clean Air Act and is the Supreme Court's most recent delegation of power case. *Administrative Law* is an essential tool for those seeking to understand or obliged to work within its general principles. It is an excellent textbook for advanced undergraduate and graduate students studying administrative law in departments of political science and public administration.
