

Agilent is the world leader in nanoscale instrumentation, mapping nanoscale content onto the next advance: fast laser technology in the industry, in fact Agilent changed the way scientists and clinical scientists think. We continue to lead the industry with new optical solutions from the 1998 introduction of the Cavity for the first laser, to quantum, infrared imaging, and now single shot electron microscopy. The GPS 550i provides the world's largest range selection (500 5500i's & 20000i's). In addition, you can choose what you want to measure most often (up to 100 different situations such as driving or tree location). Refinement equals safety: any wrong word mark the dangerous areas a high traffic situation. Take them all away that are difficult or impossible to access from a safe distance.
