Radio Critics and Popular Culture Paul Rixon, 2018-04-20 Radio still remains an important form of media with millions listening to it daily. It has been reborn for the digital era and is an area where there is great interest in its development role and form. Attempting to fill the gap in research on British radio criticism, this volume explores the development and role of radio criticism in the discourse around radio in Britain from its birth in the 1920s up to present day. Using a historical approach to explore how as radio emerged the press provided coverage which helped shape and reflect radio's position in popular culture, Paul Rixon delivers an interesting and engaging exploration that provides a cultural perspective on radio with a specific focus on newspaper criticism. *Radio Critics and Popular Culture* is an innovative and original addition to existing research and will be invaluable for those interested in the way that British radio has evolved.

Cross-media Promotion Jonathan Hardy, 2010 Cross media promotion is one of the most salient characteristics in our modern media systems arising out of a context that involves virtually every level of media studies: media ownership, advertising and funding, technological trends and regulatory issues. The latter is a specialty of the author of this book. These factors often work together and Hardy is masterful in interweaving in an insightful but accessible way the complexity of media promotion. From the Foreword by Matthew P McAllister, Penn State University. Book Jacket.

TV World, 1998-06 International business magazine for television.

Modern Media in the Home Hugh Mackay, Darren Ivey, 2004 *Modern Media in the Home* is a readable and lively account of recent empirical research on media use in the home. It reports an important study of the use of the breadth of the mass media in Wales in the digital era. Examining the place of the media in everyday life and social relationships, *Modern Media in the Home* focuses on ten diverse households and what emerges is a fascinating account of the diversity of contemporary media uses. Reporting the fine grained detail of domestic interaction, it explores how the media are used and made sense of and the sorts of experiences, interaction and identities that are sustained or developed through media use.

TV Guide, 2007 *An Introduction to Television Studies* Jonathan Bignell, 2004 The author discusses the theoretical issues of shows such as *Buffy the Vampire Slayer*, *America's Most Wanted*, *Sex and the City*, *The Cosby Show*, *Dallas*, *The Sopranos*, *Crimewatch* and *Big Brother*.

Screen Digest, 2006 Comparing Media from Around the World Robert McKenzie, 2006 Featuring an innovative organization and in depth research, *Comparing Media from Around the World* discusses how media systems are similar and different across the globe. This book discusses the fundamental elements of media systems and shows how they are used in eight sample countries. Unlike other books, it is organized according to media elements with comparative discussions of all eight countries within each chapter. This helps readers make connections and comparisons between the countries and allows them to apply the concepts to other countries not discussed in the book. *Comparing Media from Around the World* also features exciting photographs from the sample countries showing not only the media but how they are experienced in context: for example, a newspaper stand in France and an internet cafe in Ghana.
