Aristophanes and the Current Moment Constanze Güthenke, Samuel Gartland, 2025-10-16 Aristophanes comedies have long been read as a response to the political turbulence of 5th century Athens particularly during the Peloponnesian War However this volume frames him as a political correspondent whose works engage critically with both his time and ours The contributions to this volume explore the ways in which Aristophanes comedy remains vital and disruptive in the present The essays examine the tension between Aristophanes comic exaggerations and their real world implications revealing how his humour both reflects and unsettles our current political and social concerns Through topics like speech violence pedagogy gender and populism the contributors illustrate how Aristophanes plays offer a lens through which to interrogate the fluidity of political and social power both in ancient Athens and today In doing so this volume reflects the provisional nature of comedy itself a genre built on misdirection timing and the inevitable instability of its moment By engaging with Aristophanes in the current moment this collection invites readers to embrace the elusiveness and tension inherent in both comedy and scholarly practice Far from offering definitive answers the plays challenge us to question engage and reflect on our own commitments and complicities
