this new edition bibliographical citations and entries have been revised in the light of subsequent publications in the Collected Works and essential corrections have been made The book traces an important line of development in Jung's thought from 1912 onwards The earliest of the papers elaborates Freud's concept of sexual libido into that of psychic energy In those that follow we see how Jung discarding one by one the traditional philosophical hypotheses gradually arrived at a concept which is even more controversial than psychic energy was in its day DDL namely psychic reality The book contains the first mention of the archetype in Jung's writings as well as his later views on its nature There is also a valuable account of the therapeutic uses of active imagination first described in an essay written in 1916 El arte del recuerdo Stefano

Kniha představuje nejpodrobnější paranormální průzkum, jak byl kdy proveden plně zbalvaných příběhů od vědeckých až po duchovních myslitelů. The Alchemical Mercurius Mathew Mather, 2014-03-05 The figure of the alchemical Mercurius features ubiquitously and radically in Jung's later works but despite this there has been little research concerning Mercurius in Jungian studies to date. In this book Mathew Mather explores the figure of the alchemical Mercurius and contextualises and clarifies its significance in Jung's life and works. Placing the alchemical Mercurius as a central concern reveals a Jungian interpretation in which the grail legend, alchemy and precessional astrology as three thematic threads converge. In such a treatment Jung's belief in the dawning of a new platonism emerges as a central consideration and an esoteric perspective on Jung's life and works is brought more fully to light constructing a life myth interpretation. The book is comprised of three parts: Aurea Catena locating the figure of the alchemical Mercurius within the Western esoteric tradition; Daimonic Encounter the relevance of this figure in Jung's personal life; Magnum Opus Jung's portrayal of this figure in key texts such as Synchronicity, Aion, Mysterium Coniunctionis and Emma Jung and von Franz's The Grail Legend. The Alchemical Mercurius is a unique contribution to analytical psychology substantially revealing esoteric Jung and providing valuable perspectives on the theme of his myth for our times. The book will appeal to researchers and academics in the field of analytical psychology as well as postgraduate students.

Историк науки в вихре событий. Том 3. Повесть о судьбе и случае Юрий Чайковский, 2024-05-14 *The Paradoxical Meeting of Depth Psychology and Physics*

Robert S. Matthews, 2022-06-30 This book unites the worlds of physics and depth psychology through analysis of carefully selected existing and new dream materials. Their interpretation by Matthews provides fertile ground for the unifying of the extreme opposites of psyche and matter and forms a continuation of the deep dialogue between acclaimed psychologist Carl Jung and Nobel physicist Wolfgang Pauli. What emerges is an individuation process where inner and outer worlds are intertwined through a succession of dream images culminating with that of the ring in the mathematical function at the heart of quantum physics. This mysterious function unites wave and particle and symbolically carries the quality of paradox. The occurrence of the ring in Pauli's and the author's dreams suggests paradox is a necessary psychological state to experience a living union between psyche and matter. Analysis of accompanying materials further indicates the arising of a new world.

view where inner and outer mind and matter may again be seen as a unified whole This book is an engaging read for academics and researchers in the field of Jungian psychology and will appeal to those interested in the novel application of quantum physics to philosophy psychology and spirituality The Mystery of Transformation Murray Stein, 2022-07-15 The transformation of personality is mysterious whether it comes about gradually or suddenly In part it is the result of the process of aging Life itself puts a person through a series of transformations similar to the moultings of insects and reptiles There are also rituals created by humans in their cultures that facilitate transformations to higher levels of identity and consciousness through instigating a process of spiritual death and rebirth into a greater sense of wholeness The essence of the process is alchemical and what controls it is mysterious lodged in the unconscious dynamics of the self The chapters in this book are attempts at exploring those dynamics while acknowledging that they will forever remain beyond our understanding a mystery This work consists of a series of probes into the mystery of the individuation process Central to the discussion are Jung's late writings on the alchemy of psychological transformation in the late stages of individuation
