Supernatural Serial Killers Samantha Lyon,Dr

Daphne Tan, 2015-11-25 Albert Fish held the genuine belief that the murders he committed were upon instruction from God. The original Dracula's relative Countess Elisabeth was rumoured to use blood of her victims to preserve her youth and beauty. Jeffrey Dahmer began a macabre project of building an occult altar with his victims' body parts, believing this granted him supernatural powers to subdue and control his prey. Peter Stumpp, who started practising the wicked arts from twelve years of age, was convinced he was a werewolf. The crimes committed by these people usually involved sexual deviance, cannibalism, and violence toward children. In the sixteenth century Europe, the problem became so significant that Werewolf Witch Trials were conducted; many have no idea that it was possible to be tried and convicted for the crime of being a Werewolf, but Lycanthropy was a serious and major social concern in the 1500s. Supernatural Serial Killers discuss the individual cases of supernatural serial killers, including their background, crimes, trials, and defences.
