The Ladies of Llangollen Fiona Brideoake, 2017-04-06 The Ladies of Llangollen is the first book length critical study of Lady Eleanor Butler and Miss Sarah Ponsonby whose 1778 elopement and five decades of retirement turned them into eighteenth century celebrities and pivotal figures in the historiography of female same sex desire Debates within the history of sexuality have long foundered over questions of what constitutes proof of past sexual desires and practices and the nature of Butler and Ponsonby's intimacy has been deemed inimical to productive critical consideration In this ground breaking study Fiona Brideoake attends to the archive of their shared life written performed and enacted in the vernacular of the everyday to argue that they embodied an early iteration of female celebrity in which their queerness registered less as the mark of some specified non normativity than as the effect of their very public very visible resistance to sexual legibility Throughout their lives and afterlives Butler and Ponsonby have been figured as chaste romantic friends prototypical lesbians Bluestockings Romantic domestic archetypes and proleptically feminist modernists The Ladies of Llangollen demonstrates that this heterogeneous legacy discloses the queerness of their performatively instantiated identities

At Home in the Eighteenth Century Stephen G. Hague, Karen Lipsedge, 2021-09-17 The eighteenth century home in terms of its structure design function and furnishing was a site of transformation of spaces identities and practices Home has myriad meanings and although the eighteenth century in the common imagination is often associated with taking tea on polished mahogany tables a far wider world of experience remains to be introduced At Home in the Eighteenth Century brings together factual and fictive texts and spaces to explore aspects of the typical Georgian home that we think we know from Jane Austen novels and extant country houses while also engaging with uncharacteristic and underappreciated aspects of the home At the core of the volume is the claim that exploring eighteenth century domesticity from a range of disciplinary vantage points can yield original and interesting questions as well as reveal new answers Contributions from the fields of literature history archaeology art history heritage studies and material culture brings the home more sharply into focus In this way At Home in the Eighteenth Century reveals a more nuanced and fluid concept of the eighteenth century home and becomes a steppingstone to greater understanding of domestic space for undergraduate level and beyond
