Westerners often make the mistake of discounting the spiritual aspects of life as not real imaginary a mere reflection of what is experienced in the real world by which they usually mean the physical world that we experience with our five senses Many claim that the concept of angels and demons are creations of our imagination that God or the gods of other religions are mere projections that we create for ourselves The argument goes like this Humans look at physical reality and then create imagine a shadow world the spirit world based upon our experience of real life But what if the opposite is true What if what we are experiencing with our five senses is really just a reflection in a pond What if the real begins with the spiritual and then is reflected into the physical If this hypothesis is true if indeed what we see happening around us in the physical world begins in the spiritual world and is only later manifested where we can perceive it with our five senses then that has profound implications for us in a practical sense If true this would mean that individual crimes acts of evil and aggression and perhaps even larger events armed conflicts terrorist strikes or man made catastrophes that occur in our physical world might be avoided altogether if we can stop them at the spiritual level Likewise what if good might blossom in our physical world as a result of intervention at the spiritual level It certainly seems that we have evidence for both in human experience and in the scriptures Join Dr Silas Gaines as he walks his readers through a scriptural historical and personal journey to identify spiritual laws and principles that govern our current reality Gaines aids us in highlighting spiritual laws woven into the Created Order of which we are often dangerously ignorant and which often hold the keys to humanity flourishing in God's plans and purposes Gaines invites us to join in a journey that will open our eyes to new realities around us and empower us to walk into our God given destinies impacting people and the world around us as we were born to do **Godey's Lady's Book**

Don't Read This! Margaret Mahy, 2004 An international collection of ghost stories and spooky tales by such authors as Susan Cooper Roberto Piumini and Bjarne Reuter *Michigan Christian Advocate*, 1920 *Double Lives* Eric Brach, 2018-08-15 Terrifying true stories of criminals who live seemingly normal lives perfect for fans of Mindhunter these

are the stories that keep me up at night Sgt Joseph Kuns LAPD He seemed so normal is an all too common sentiment from the neighbors of violent criminals when their heinous acts are finally exposed There are often no obvious indicators that separate the pleasant neighbor from the sadistic murderer Even serial killers like Jeffrey Dahmer Ted Bundy and John Wayne Gacy managed to circulate unnoticed among their communities They are neighbors and students professionals and friends living out criminal double lives In Double Lives true crime author Eric Brach presents both a nonfiction expos and a nationwide search that details the exploits of some of the worst criminals in recent American history all of whom succeeded in going undetected for years while perpetrating one crime after another all in their own hometowns Monsters of every race age gender and socioeconomic class are profiled in this roller coaster of crime Along the way the author discusses the criminals he grew up with in his own seemingly innocent community and provides a personal look at the current scourge of opioid addiction making Double Lives a sensational yet sobering read
