Unisa Disaster Management:

Disaster Management in Sub-Saharan Africa Roland Azibo Balgah, Jude Ndzifon Kimengsi, 2022-04-21 A combined analysis of all the chapters provides an interesting summary and information for creating disaster management policies for improved results in SSA With an extensive glossary of terms and index the book lends itself to specialized academics and students but also to disaster management policy makers and practitioners

Climate Change and Disaster Risk Management Walter Leal Filho, 2012-08-10 There has been some degree of reluctance in the past to consider disaster risk management within the mainstream of adaptation to climate variability and climate change However there is now wide recognition of the need to incorporate disaster risk management concerns in dealing with such phenomena There is also a growing awareness of the necessity for a multi sectoral approach in managing the effects of climate variability and climate change since this can lead to a significant reduction of risk This book presents the latest findings from scientific research on climate variation climate change and their links with disaster risk management It showcases projects and other initiatives in this field that are being undertaken in both industrialised and developing countries by universities and scientific institutions government bodies national and international agencies NGOs and other stakeholders Finally it discusses current and future challenges identifying opportunities and highlighting the still unrealised potential for promoting better understanding of the connections between climate variation climate change and disaster risk management worldwide

Travelling Models in African Conflict Management, 2014-05-01 Travelling Models offers a theoretical concept for comparative research on conflict management in Africa in processes of globalization how is change in one place related to developments in other places Why are certain issues that are important in one place taken up in other places while others are not The authors examine how the travel of models enact changes particularly in African conflict situations most often in unexpected ways They look at what happens when a model has been put into practice at a conflict site and they pay attention to the forms of social re ordering resulting from this process The authors look among others at conflict managing models of power and revenue sharing mediation freedom of expression disaster management community involvement and workshopping Contributors are Andrea Behrends Lydie Cabane Veronika Fuest Dejene Gemechu Mutasim Bashir Ali Hadi Remadji Hoinathy Mario Kr mer Sung Joon Park Tinashe Pfigu Richard Rottenburg Sylvanus Spencer and Kees van der Waal The Introduction of this volume is being offered in Open Access

The Government of Disasters Lydie Cabane, 2023-09-22 This book examines the history of disaster management in South Africa showing how experts professionals and policymakers have crafted and implemented disaster policies from the mid twentieth century to the present day It assesses the ways in which states become concerned with disasters the extent to which disaster management contributes toward state formation and who and what disaster management protects It also considers the ways in which the politics of protection continuously shift as political regimes change In telling the story of how policies surrounding disaster protection have evolved in South Africa the book

demonstrates how the security apparatus that shaped disaster management was re oriented in the twenty first century towards development alongside bureaucratic reforms that aimed to democratize the state By examining the wider context of the globalization of disaster management it also highlights the often unrecognised role of experts from Africa Latin America and Asia in shaping global disaster policies The book will appeal to scholars and students of disaster governance public policy state formation and African politics

Unisa Latin American Report ,1997 *The Sustainability Ethic in the Management of the Physical, Infrastructural and Natural Resources of Zimbabwe* Chirisa, Innocent,2019-05-27 Humanity has extensively exploited natural and physical resources since the Industrial Revolution in Europe A geological era now called the Anthropocene has been coined in environmental and developmental circles to mark the increased domination of humanity on Earth and its resources Today the ecological footprint on the fragile planet continues to increase Mass industrialisation like what China is doing and pushing for is one of the drivers for increased urbanisation that results in increased demand for land It is also the stimulus behind increased deforestation overfishing and pollution As the fragility of the Earth increases global bodies like the Intergovernmental Panel on Climate Change are pushing to reduce the Earth s temperature Human efforts to manage the problem cascade from a global to a regional to a national as well as to much localised scales Missing though are nuanced contributions at national and community levels which this book is an attempt to bridge The nagging sense of responsibility is what this book explores under the label of sustainability ethic As a case study the book examines the use of sustainability ethic in the management of the physical infrastructural and natural resources of Zimbabwe This ethic is built on pillars that include participation of people households in their pursuit for sustainable livelihoods appropriate technology tools and techniques for environmental protection It also hinges on stewardship and structures institutions policies and processes of governance and sustainability There are also the aspects of ethics laws and indigenous technical knowledge for sustainability capacity building and education plans and programmes for sustainability and population and demographic determinants processes and outcomes for sustainability The book is a timely contribution to an urgent global concern and climate change debate

Cyclones in Southern Africa Godwell Nhamo,Kaitano Dube,2021-07-24 The subject of tropical cyclones in Southern Africa also known as hurricanes or typhoons in other regions of the world has been growing over the past few decades However there is still limited literature on foundational and fundamental topics on the matter To this end this book addresses this gap citing some examples from both historic and recent tropical cyclones The book presents meteorological and climatic aspects of tropical cyclones including reviews on forecasting warning message dissemination and public response aspects of early warning systems with a focus on the Tropical Cyclones Idai and Kenneth Fundamentals in disaster risk reduction DRR are also discussed moving from the provisions of the Hyogo Framework for Action 2005 2015 to the Sendai Framework for Disaster Risk Reduction 2015 2030 Climate change issues are central to the publication as well as the role of information and communication technologies in DRR and management The book also tackles some challenges and

opportunities associated with the implementation of regional legal and institutional frameworks on DRR The book comes as part of a series with three volumes The other volumes include Cyclones in Southern Africa Vol 1 Interfacing the Catastrophic Impact of Cyclone Idai with SDGs in Zimbabwe and Cyclones in Southern Africa Vol 3 Implications for the Sustainable Development Goals To this end this book is suitable as a read for several professionals and disciplines such as tourism and hospitality studies economics sustainable development development studies environmental sciences arts geography life sciences politics planning and public health

COVID-19 in Zimbabwe Lazarus Chapungu, David Chikodzi, Kaitano Dube, 2023-01-01 This contributed volume based on papers presented at a conference held in Zimbabwe in mid 2021 interrogates solutions to COVID 19 related problems and issues across agricultural environmental and water sectors in Zimbabwe and assesses their scientific economic and practical validity Across 19 chapters this volume unpacks the science economics and politics of the pandemic with a focus on understanding its secondary and tertiary impact on Zimbabwe's population The volume is also dedicated to understanding the practical and policy oriented approaches in tackling the pandemic and confronting the new normal of COVID 19 It brings together researchers development practitioners and policy makers from various disciplines in an endeavour to understand COVID 19 trends and analyse the scientific options for mitigation containment innovation and ultimately pre-empt the possible emergence and impacts of other pandemics in the future

The Institutionalisation of Disaster Risk Reduction Gideon van Riet, 2016-12-01 The past three decades have seen a global shift in disaster management from an event driven response to a could be risk management approach Disaster risk reduction DRR has become entrenched as a dominant paradigm within the field of disaster management More than a decade after adopting DRR legislation in South Africa there remains a dearth of evidence that this has translated into substantive action This book examines the institutionalisation of DRR in South Africa conceived of as a political economy of knowledge production Using a critical theory approach the book does not consider why DRR is failing but instead asks why DRR As such it explores possibilities beyond DRR's narrow optic and offers new insights into disaster management through the lens of South Africa This is valuable reading for graduate students and academics working in disaster studies geography public policy and development post development studies as well as policy makers

Strengthening the Disaster Resilience of the Academic Biomedical Research Community National Academies of Sciences, Engineering, and Medicine, Division on Earth and Life Studies, Health and Medicine Division, Institute for Laboratory Animal Research, Board on Earth Sciences and Resources, Board on Health Sciences Policy, Committee on Strengthening the Disaster Resilience of Academic Research Communities, 2017-11-20 The academic biomedical research community is a hub of employment economic productivity and scientific progress Academic research institutions are drivers of economic development in their local and state economies and by extension the national economy Beyond the economic input that the academic biomedical research community both receives and provides it generates knowledge that in turn

affects society in myriad ways The United States has experienced and continues to face the threat of disasters and like all entities the academic biomedical research community can be affected Recent disasters from hurricanes to cyber attacks and their consequences have shown that the investments of the federal government and of the many other entities that sponsor academic research are not uniformly secure First and foremost events that damage biomedical laboratories and the institutions that house them can have impacts on the safety and well being of humans and research animals Furthermore disasters can affect career trajectories scientific progress and financial stability at the individual and institutional levels Strengthening the Disaster Resilience of the Academic Biomedical Research Community offers recommendations and guidance to enhance the disaster resilience of the academic biomedical research community with a special focus on the potential actions researchers academic research institutions and research sponsors can take to mitigate the impact of future disasters Behind the Mask Tony Emmett,Alexander Butchart,2000 This book argues for a proactive approach that focuses on preventing acts of crime and violence before they occur rather than the punishment of perpetrators after the fact It sees crime as embedded in the social structure in the disintegration of families and communities in the breakdown of authority and social trust and in the inequalities of society that breed hostility and disempowerment This theme of social disintegration is linked to recent developments in the field of social capital and in particular to recent empirical findings that link violence with economic inequality and the breakdown of social cohesion The book presents a number of strategically selected case studies of crime and injury prevention projects in South Africa including case studies of community responses to crime

Guide to the Archival Collections in the UNISA Documentation Centre for African Studies UNISA Documentation Centre for African Studies,1984 **The Increasing Risk of Floods and Tornadoes in Southern Africa** Godwell Nhamo,Lazarus Chapungu,2021-08-03 This volume discusses the increasing occurrence of floods and tornadoes in Southern Africa over the last few years The book discusses existing flood and tornado management protocols indigenous approaches to mitigate disaster risk urban and peri urban flooding tornado induced flooding and windstorms and the challenges and vulnerabilities associated with rural and transboundary floods The book offers planning and recovery strategies to minimise impacts from these events through sustainable means Such means include sustainable drainage systems waste management in harbors and beaches community engagement in flood prone areas and improved food security measures in urban poor households

Cases on Electronic Record Management in the ESARBICA Region Keakopa, Segomotso Masegonyana,Mosweu, Tshepho Lydia,2020-02-28 The Eastern and Southern African Regional Branch of the International Council of Archives ESARBICA is dedicated to keeping and preserving records and documents so they may be accessible to the public Constant research and re examination of current record keeping methods such as the Electronic Document and Records Management System EDRMS is necessary to ensure the preservation and dissemination of information Cases on Electronic Record Management in the ESARBICA Region is an essential reference source that shares case studies on the development and implementation of

records management strategies including the procurement and implementation of EDRMS Covering topics such as record management strategy development e records readiness and legal frameworks this book is ideally designed for archivists librarians records specialists knowledge managers ICT professionals policymakers system analysts project managers legal officers academicians researchers and students

Resilience and Sustainability in Urban Africa Innocent

Chirisa, Andrew Chigudu, 2021-08-02 Resilience has become a very topical issue transcending many spheres and sectors of sustainable urban development This book presents a resilience framework for sustainable cities and towns in Africa The rise in informal settlements is due to the urban planning practices in most African cities that rarely reflect the realities of urban life and environment for urban development Aspects of places people and process are central to the concept of urban resilience and sustainable urban growth It stems from the observation that urban vulnerability is on the increase in Zimbabwe and beyond In history disasters have adversely affected nations across the world inflicting wide ranging losses on one hand while on the other hand creating development opportunities for urban communities Cooperation in disaster management is a strategy for minimising losses and uplifting the affected urban settlements The significance of urban planning and design in the growth and development of sustainable urban centres is well documented Urbanisation has brought with it challenges that most developing countries such as Zimbabwe are not equipped to handle This has been accompanied by problems such as overpopulation overcrowding shortages of resources and the growth of slum settlements There need is to seriously consider urban planning and design in order to come up with contemporary designs that are resilient to current urban challenges There are major gaps in urban resilience building for instance in Harare and the local authority needs to prioritise investment in resilient urban infrastructure

Ethics and Accountable Governance in Africa's Public Sector, Volume I Kemi Ogunyemi, Isaiah Adisa, Robert E. Hinson, 2022-05-19 This book is an excellent resource for academics and students interested in ethics and accountability in the public sector as well as for practitioners NGO workers and policymakers Over the last decades issues in ethical leadership have become central to the global call for higher moral standards on the part of corporate organisations and their leaders and managers The book s chapters investigate these concerns in Africa where governance gaps often reflect poor leadership Parenthetically in 2001 a UNDP report found difficulties in applying anti corruption laws and managing public institutions in the continent Twenty years on significant efforts have been made to improve the situation yet extensive challenges still subsist In this first volume contributors discuss the practice of ethics anti corruption and performance management and propose solutions some general to the continent and others country specific
