Visualization of Interface Metaphor for Software Dinesh S. Katre,2011 This book presents a comprehensive process for visualization of interface metaphor for software It is helpful in designing interactive user interfaces with magical super affordances and definitive user experiences As per the ancient Indian Vedic literature metaphors are always conceived out of Vastu entities having existence in our world The visualization process given in the book shows how metaphorization could help in innovating highly experiential user interfaces as one can create Avastu non entities by combining different objects and imaginative properties together The main highlights of this process are selection and dissection of interface metaphor pre facto analysis qualitative and quantitative evaluation mapping between user and application domain lexicons specialized set of usability heuristics and remote usability testing The steps of this process are integrated with the Software Development Life Cycle SDLC It shows the interdependence of form and function and its seamless fusion during software engineering User experience designers can apply this process for designing websites online applications personal computer software e learning computer games virtual interactive worlds public access systems mobile and tablet applications
