Strong Interest Inventory® Profile

BASIC INTEREST SCALES

The Basic Interest Scales represent specific interest areas that often pertain to work activities, projects, career work, and leisure activities that are generally motivating and rewarding. As with the General Occupational Themes, your interest levels (Very Little, Little, Moderate, High, Very High) were determined by comparing your score against the average score for your gender.

As you review your results in the charts below, note your top interest areas and your area of least interest, and think about how they relate to your work, educational, and leisure activities. Take time to consider any top interest areas that are not represented in the chart below. You may be able to incorporate them into your plans.
