considering the investment and managing costs of fermenters Although yield stability and quality of the molecules may vary
among different heterologous systems and plants are competitive on a case to case basis still the plant factory attracts
scientists and technologists for the challenging features of low production cost product safety and easy scale up Once
engineered a plant is among the cheapest and easiest eukaryotic system to be bred with simple know how using nutrients
water and light Molecules that are currently being produced in plants vary from industrial and pharmaceutical proteins
including medical diagnostics proteins and vaccine antigens to nutritional supplements such as vitamins carbohydrates and
