

The background of the slide features several technical architectural drawings in a light tan color. These drawings illustrate various cross-sections of stucco applications, including exterior walls, interior walls, and ceiling details. The drawings show the relationship between the stucco finish, the underlying substrate (like concrete or masonry), and other building components such as insulation, vapor barriers, and structural elements. Some drawings show stucco over a curved surface, while others show it over a flat wall or ceiling. The lines are clean and precise, typical of architectural specifications.
