Court-Supervised Restructuring of Large Distressed Companies in Asia Wai Yee Wan,2022-07-28 This book provides an in depth analysis of 4 economically significant Asian jurisdictions Mainland China India Hong Kong and Singapore These jurisdictions have recently either reformed or are considering reforming their corporate restructuring laws to promote regimes conducive to restructuring financially distressed but otherwise economically viable companies Mainland China India Hong Kong and Singapore continue to adhere to a framework that requires the court s final approval but draw references from Chapter 11 of the Bankruptcy Code 1978 in the United States and or the schemes of arrangement in the United Kingdom However the institutional and market structures are very different in Asia in particular Asia has a far higher concentration in shareholdings among listed firms including holdings by families and the state and a different composition of creditors The book explains how notwithstanding the legal transplantation corporate restructuring laws in these Asian jurisdictions have adapted and evolved due to the frictions in shareholder creditor and creditor creditor relationships and the role of the state in resolving non performing loans and financial distress of state owned enterprises which are listed or which issue public debt The study argues that any reforms must go beyond professionalising the insolvency professionals and the judiciary but must be designed to address fundamental issues of corporate governance bank regulation and enforcing non bankruptcy rules It offers invaluable insights for academics and policy makers alike

Svantesson,2021-08-05 In this the fourth edition of Private International Law and the Internet Professor Dan Svantesson provides a detailed and insightful account of what has emerged as the most crucial current issue in private international law that is how the Internet affects and is affected by the five fundamental questions When should a lawsuit be entertained by the courts Which state s law should be applied When should a court that can entertain a lawsuit decline to do so How wide scope of jurisdiction should be afforded to a court with jurisdiction over a dispute And will a judgment rendered in one country be recognized and enforced in another Professor Svantesson identifies and investigates twelve characteristics of Internet communication that are relevant to these questions and then proceeds with a detailed discussion of what is required of modern private international law rules Focus is placed on several issues that have far reaching practical consequences in the Internet context including the following cross border defamation cross border business contracts cross border consumer contracts and cross border intellectual property issues A wide survey of private international law solutions encompasses insightful and timely analyses of relevant laws adopted in a variety of jurisdictions including Australia England Hong Kong SAR the United States Germany Sweden and China as well as in a range of international instruments There is also a chapter on advances in geo identification technologies and their special value for legal practice The book concludes with two model international conventions one on cross border defamation and one on cross border contracts as well as a set of practical checklists to guide legal practitioners faced with cross border matters within the discussed fields Professor Svantesson s book brings together a wealth of research findings in the overlapping disciplines of law and technology that will be of particular utility to practitioners and academics working in this complex and rapidly changing field His thoughtful analysis of the interplay of the developing Internet and private international law will also be of great value as will the tools he offers with which to anticipate the future Private International Law and the Internet provides a remarkable stimulus to continue working towards globally acceptable private international law rules for communication via the Internet **Accountants' Index** ,1921 Subject Index of Modern Books Acquired British Library,1911 *The Law Times* ,1858 **British Chamber of Commerce Journal** ,1921 Working Paper Series ,1996 **Chinese Law** Jianfu Chen,2023-09-25 Law in particular its actual functioning in any given society is

above all a part of the culture of that society a part of its historical political social and intellectual creation If a black letter approach towards law in the West is under increasing criticism it is particularly unhelpful if not misleading in understanding Chinese law its nature and developments Rather to understand Chinese law its nature and developments we need to examine the Chinese legal traditions the prevailing political and economic situations Party policies on economic reform and tolerance towards political liberalisation and scholarly discussions and debate This is the approach of this book Its aim is to put Chinese law in context to outline the nature and present status of its development and to analyse the meaning of the law within the Chinese context However this monograph does not ignore the practical needs for determining the precise contents of the black letter law either A study of this kind necessarily involves a process of topic selection However to avoid over generalisation and over simplification it also demands a considerable degree of comprehensiveness in coverage For this reason the book covers what the Chinese scholars term fundamental law and basic branches of law while other topics are covered because they are either crucial for the understanding of the law such as legal traditions in China or of practical importance such as foreign investment and trade Chapter One provides an historical background to traditional Chinese legal culture and modern law reforms The historical background of specific topics is examined as the topics are analysed in the following chapters Chapter Two deals with the changing fate of law under Communist rule Its focus is on the underlying factors and justifications for such changes Chapter Three introduces discussions on specific branches of law from public law constitutional law law making administrative law criminal law criminal procedure law to private law civil law family law contracts law on business entities and law on foreign investment and trade Each of these is dealt with in a separate chapter After the analysis of these substantial topics certain conclusions are drawn which attempt to define the nature of Chinese law and its developments in present day China
