collection of articles presented throughout the book is very concerned with the fit of strategic reward management with the business environment business strategy and compensation strategy Research has clearly documented the importance of this fit to organizational effectiveness Gomez Mejia Balkin 1992 A practical illustration makes the point as well Taco Bell was found guilty in a class action suit by current and former employees In order to keep the number of labor hours low in a productivity formula used to grant bonuses to managers employee time sheets failed to account for overtime hours by employees Failure to pay attention to the legal context in designing implementing and evaluating a strategic reward program cost Taco Bell millions of dollars Gatewood 2001 Although all of the readings in the book focus in on the management of strategic rewards in the larger business context the readings are organized by topical area The selection of topics is simply based on my writing interests and do not reflect the entire domain of important topics in strategic reward management
