

Analyzing the Declaration of Independence Module 1, Topic 3 Application

The Declaration of Independence is the primary document that our founding fathers used as a justification for their war of independence against Britain. Americans were not the people for which the document was intended. The document was written to justify the action of the colonists to Britain and other countries of the world (mostly those in Europe). The National Continental Congress hoped that such a justification might be enough reason for foreign countries to aid the colonists against Britain, or at least, not help Britain put down the rebellion of its colonies.

It is thus time for you to take a closer look at the organization and content of this persuasive document.

Part One: The Opening This part provides the rhetorical justification of when it is OK for a people to overthrow (change) its government.	From the first two paragraphs of the Declaration of Independence, list the self-evident truths that indicate when it is alright for people to change their government.
Part Two: The Grievances This part lists over 20 grievances (complaints) about the king of Britain violating the rights of his colonial citizens.	List and explain what you believe are the 3 most significant grievances of the colonists.
Part Three: Repetition This part explains that the colonists attempt to resolve their issues with the king but that they were refused (the last to last paragraph).	List and explain three ways that the colonists attempted to resolve their problems with Parliament and/or the king.
Part Four: Independence Declared In the final paragraph, the independence of the colonies from Britain is declared.	What do the signs of the Declaration indicate that they are speaking for and to whom do they say they are speaking?
