Deliver Us from Evil John Swinton, 2022-11-21 What do we mean when we call something or someone evil The word evil tends to conjure up images of demons devils and horrifying crimes things that you and I couldn t possibly get involved with But is that true Is evil really something that only wicked people who are quite unlike ourselves get up to Could it be that you and I are not only capable of doing evil things but are already involved with such things This book explores the hidden nature of evil and draws out the ways in which all of us knowingly or otherwise are caught up in webs of evil that bring about disastrous consequences often to the weakest and most vulnerable amongst us We need to find ways of learning to see evil and resisting it by all means possible If we can t see evil we can t resist it If we can t resist it we get sucked into it

Perspectives on Evil, 2019-10-07 The question of evil is one of the oldest and most intensely studied topics in intellectual history In fiction legend and mythology the boundary between good and evil is often depicted as clear cut at least to the reader or listener who is supposed to understand such tales as lessons and warnings Evil is something that must be avoided by the hero in some cases and vanquished in others it is either the exact opposite of the expected good behaviour or its complete absence Even so for the characters in these didactic fictions it turns out to be deceptively easy to fall to the infernal dark side This volume draws on the expertise of an interdisciplinary group of contributors to chart events and deeds of an evil nature that have been lived in the recent past and have become part of history from individual to

institutionalised evil **Reconciliation and Social Healing in Afghanistan** Heela Najibullah, 2017-01-11 Heela Najibullah analyzes the Afghan reconciliation processes through the lenses of transnational peace philosophy and Elicitive Conflict Transformation. The research highlights two Afghan governments' reconciliation processes in 1986 and 2010 and underlines the political events that shaped the 1986 National Reconciliation Policy, drawing lessons for future processes. The author points out the historical and geopolitical patterns indicating regional and global stakeholders' involvement in Afghan politics. Social healing through a middle-out approach is the missing and yet crucial component to achieve sustainable reconciliation in Afghanistan.

Friendless or Forsaken? Ruth Lamont, Eloise Moss, Charlotte Wildman, 2024-07-15 Between 1860 and 1935 about 100 000 impoverished children were emigrated from Britain to Canada to seek a new life in the land of plenty. Charities, religious workers, philanthropists, and state-run institutions such as workhouses and orphanages all sent children abroad, claiming that this was the only way to prevent their becoming criminals or joining the masses of working-class unemployed. *Friendless or Forsaken* follows the story of child emigration agencies operating in North West England, tracing the imperial relationships that enabled agents to send children away from their homes and parents who often lost sight of them forever. The book sheds light on public support for the schemes, their financial beneficiaries, and how parents were persuaded to consent to sending their children across the world frequently without fully realizing what rights they had signed away. The story charts the legal measures introduced to maintain and regulate child emigration schemes, as well as the way home children were portrayed as both needy and dangerous on each side of the Atlantic, and how the children themselves sought to overcome prejudice and isolation in an unfamiliar country. Exploring the transnational economy of child emigration schemes, *Friendless or Forsaken* records the bravery and resilience of those children whose lives were altered by this traumatic and divisive episode in the history of empire.

The Routledge Companion to Applied Performance Tim Prentki, Ananda Breed, 2020-12-29 *The Routledge Companion to Applied Performance* provides an in-depth, far-reaching and provocative consideration of how scholars and artists negotiate the theoretical, historical, and practical politics of applied performance, both in the academy and beyond. These volumes offer insights from within and beyond the sphere of English-speaking scholarship, curated by regional experts in applied performance. The reader will gain an understanding of some of the dominant preoccupations of performance in specified regions, enhanced by contextual framing. From the disarming of the human body through dance in Colombia to clowning with dementia in Australia, via challenges to violent nationalism in the Balkans, transgender performance in Pakistan, and resistance rap in Kashmir, the essays, interviews, and scripts are eloquent testimony to the courage and hope of people who believe in the power of art to renew the human spirit. Students, academics, practitioners, policy makers, cultural anthropologists, and activists will benefit from the opportunities to forge new networks and develop in-depth comparative research offered by this bold global project.
