The Alternate Ending Kenn Gordon,2020-12-23 I grew up in the Highlands of Scotland and I became a musician while still at School Then I made my first musical instrument at the age of just 13 years an Appalachian Dulcimer I joined the Royal Air Force at the age of 18 I served for 9 years and worked at many of our secret establishments Even during my military career I continued to play in bands as well as to write music When time would allow I made guitars for myself although most of these ended up in my friend s hands With the bands that I formed and played in I have been fortunate enough to have recorded 32 albums I later formed my own company making bespoke guitars Gordon Guitars UK The pressure of running so many ventures simultaneously eventually took its toll and a series of heart attacks followed So I looked for a new and more sedate way to direct my creative juices and writing thrillers fitted that bill perfectly **The American Uncivil War** Van Summers,2010-06 Tom Greenlee the CEO of Ameribank and the leader of a forty member secret group called the National Association for Preserving White America believes the country is self destructing He preaches that the white middle and upper classes of the country are finding their wealth stripped away their beliefs trampled their culture spat upon and their lives threatened by people of color He and his group of protectors desire to carve out an independent nation of their own As a fragmented and polarized society Americans begin to feed on each other until they become a target for attacks by both internal and external enemies A strike on Houston s Reliant Stadium kills and maims thousands of citizens It s being touted as a scheme concocted by the CIA to keep the U S fighting in the Middle East Minutemen vigilantes massacre a group of migrant workers and their families in order to intimidate others from entering the country Dan Louder New York City s first black mayor survives an assassination attempt The New York Stock Exchange closes its doors While the country teeters on the edge of destruction the citizens of the U S must prepare themselves to live a very different existence in the future To Be Continued Hope Apple,Merle L. The period of political and military activism can be dated to roughly between 410 when Pope Innocent I vainly tried to avert the sack of Rome by the Visigoths and about 1870 when Pope Pius IX was abandoned by his protectors the French Army and forced to submit to the new Italian state by surrendering any political power the Vatican had left During those centuries the popes employed every means at their disposal including direct military action to maintain their domains centered on Rome Some pontiffs such as Alexander VI Julius II 15th century plus the energetic Borgia popes later built the Papal States into a power in their own right In the following century and a half Europe's destructive religious wars almost always had a papal component with the Lateran and later Vatican fielding their own armies Climaxing the story are the little known yet bitter late nineteenth century battles between the papal volunteers from all over Europe and America and the Italian nationalists who ultimately prevailed John Carr narrates the story of Papal military clout with engaging verve
