The Lazarus Culture A Zombie Novel:

The Lazarus Culture Pasquale J. Morrone, 2009-07 Secret Service Agent Christopher Kearns had no idea what he was up against Assigned on a temporary basis to the Center for Disease Control he only knew that somehow it was connected to the lives of those the agency protected namely the President of the United States If there were possible terrorist activities in the making he could only guess it was at a red alert basis When Kearns meets and befriends Doctor Marlene Peterson of the Breezy Point Medical Center in Maryland he soon finds that science fiction can indeed become a reality In a solitary room walked a man with no vital signs dead The explanation he received came from Doctor Lee Fret a man assigned to the case from the CDC Something was attached to the brain stem Something alive that was quickly spreading rapidly through Maryland and other states Kearns and his ragtag army of agents and medical personnel soon find themselves in a world of meaningless slaughter and mayhem

Zombie Futures in Literature, Media and Culture

Simon Bacon, 2024-10-31 An innovative investigation into how zombie narratives over the past ten years have been specifically leading up to a unique intersection with the world as it exists in the 2020s this book posits the undead as a vehicle to communicate humanity's pathway into and out of the ideological health and environmental pandemics of our time. Exploring depictions of zombies across literature poetry comics television film and video games Simon Bacon brings together this timely intervention into how zombies enable speculation about future modes of being in a changing world and represent the fluid notion of old and new normals. With each chapter moving beyond traditional readings of the undead *Zombie Futures* situates the zombie as an evolving cultural imaginary at the centre of discourses around how human cognition and embodiment are effected by global realities such as consumerism new technologies climate change and planetary degeneration. Structured around contagious partisan ideologies ecological sickness mental health crisis and the very literal COVID 19 virus this book establishes how the zombie figure might manifest post human and post normative futures. Works featured include graphic novels and comics like *The West Zombies Crossed* and *Endzeit* the South Korean series and films *Kingdom* *Train to Busan* and *Peninsula* *The Last of Us* and the *Resident Evil* game franchises Bollywood horror anthology *Ghost Stories* Joss Whedon's *Serenity* *Cargo* and literature such as *The Girl with All the Gifts* the fiction of Stephen Graham Jones and Ryan Mecum's *Zombie Haiku*. In a time when popular culture and scholarship has been overrun with the undead this original study offers a refreshing look at the zombie and what it can tell us about our world going into and emerging from global catastrophe.
