Angels in the Sky Robert Gandt, 2017-10-03 Reads like a World War II thriller only better because every word is true One of the great untold stories of history Robert Gandt has brought it vividly unforgettably to life Steven Pressfield best selling author of Gates of Fire In 1948 when the newly founded nation of Israel came under siege from a coalition of Arab states a band of volunteer airmen from the United States Canada Britain France and South Africa arrived to help They were a small group fewer than 150 Many were World War II veterans most of them knowingly violated their nations embargoes on the shipment of arms and aircraft to Israel The airmen risked everything their careers citizenship and lives to fight for Israel The saga of the volunteer airmen in Israel's war of independence stands as one of the most stirring and little known war stories of the past century

City of Angels Omar López Mato, 2002 *Angels, Let's Talk* Orlando Constantine, 2007-10 The anointing received is the deciding factor of the truth on this subject which is unparalleled in content as being current biblical and to the point Why are you angels here where are you coming from and do you give a damn where you are going This book intend to bring a resolution to these questions and if eternal damnation is obvious redemption is also plausible as one extremity has a equal opposite except in the case of God Come now and let us reason together saith the LORD though your sins be as scarlet they shall be as white as snow though they be red like crimson they shall be as wool Isaiah 1 18

Angels of Mercy William Seraile, 2021-05-20 This history of the nation's first orphanage for African American children founded in New York City nearly two centuries ago This book uncovers the history of the Colored Orphan Asylum founded in 1836 Through three wars two major financial panics a devastating fire during the 1863 Draft Riots several epidemics waves of racial prejudice and severely strained budgets it cared for orphaned neglected and delinquent children eventually receiving financial support from such renowned New York families as the Jays Murrys Roosevelts Macys and Astors While the white female managers and their male advisers were dedicated to uplifting these children the evangelical mainly Quaker founding managers also exhibited the extreme paternalistic views endemic at the time accepting advice or support from the African American community only grudgingly It was frank criticism in 1913 from W E B Du Bois that highlighted the conflict between the orphanage and the community it served and it wasn't until 1939 that it hired the first

black trustee More than 15 000 children were raised in the orphanage and throughout its history letters and visits have revealed that hundreds if not thousands of old boys and girls looked back with admiration and respect at the home that nurtured them throughout their formative years Weaving together African American history with a unique history of New York City this is not only a painstaking study of a previously unsung institution but a unique window onto complex racial dynamics during a period when many failed to recognize equality among all citizens as a worthy purpose In its current incarnation as Harlem Dowling West Side Center for Children and Family Services it continues to aid children albeit not as an orphanage and maintains the principles of the women who organized it so long ago Scholars and general readers interested in New York history race relations social services or philanthropy will benefit from this work Social Sciences Reviews

A Handbook Of Angels H C Moolenburgh, 2011-06-30 In 1981 a sermon was given in Leiden in which the minister called angels a forgotten group This book is an attempt to recall a forgotten group into the memory of everyone We read so much these days about matters concerning the underworld that we are inclined to forget that an enormous upper world stretches out above us A world which is also extremely active and one which is increasingly beginning to intrude In A Handbook of Angels the author recounts his survey of four hundred people and the spectacular results which include reportings of real life sightings of angels It becomes apparent that though we may have forgotten about angels they have not forgotten about us They are returning to human consciousness on a gigantic scale
