the development of its various versions It starts with an examination of the textual and manuscript evidence then explores the work of the two chroniclers first responsible for the Anglo Saxon Chronicle s creation in the late ninth century arguing that the first made a set of annals from disparate sources The author then contends that a later reviser aligned with the Alfredian political programme wrote the annals for Alfred s reign and at the same time also revised earlier entries including the famous story of Cynewulf and Cyneheard This book also sheds new light on the annals of thelred the Unready arguing that Archbishop Wulfstan of York is likely to have authored some these together with some tenth century annals Its final chapter provides the first comprehensive study of all the Chronicles poetry
