Rediscovering John Lesław Daniel Chrupcała, 2014-05-29T00:00:00+02:00 The idea of dedicating a Festschrift to honor Professor Friedrich Manns on the happy occasion of his 70th birthday came to mind in the autumn of 2011 and work on this project had been continuing ever since. Felicitously achieving this goal the Faculty of Biblical Sciences and Archaeology Studium Biblicum Franciscanum and the Franciscan Custody of the Holy Land present this volume to Father Manns with gratitude for his profound scholarship and a lifetime service in the Holy Land. Perusing through Father Manns writings it is easy to see a prominent and distinctive place devoted to the Gospel of John. It seemed therefore suitable to focus on this subject in the Festschrift honoring him; the title *Rediscovering John* relates to Manns significant contribution towards the better understanding of the Fourth Gospel. The volume comprises 21 studies authored by renowned scholars from various parts of the world from different institutions and denominations. While the first half of the studies examines general issues: history of interpretation, textual transmission, intertextuality, theological themes, archaeology, the second half treats literary narrative and exegetical approaches to particular texts of the Fourth Gospel. We augur that this rich collection will help to stimulate further discussion and reflection on the Gospel of John as well as constitute an incentive to an already distinguished scholar to continue writing challenging and thought provoking essays and books. Foreword by the Editor.

Rediscovering Rhetoric Justin T. Gleeson, Ruth C. A. Higgins, 2008 Rhetoric is ubiquitous in modern discourse from arguments delivered in the High Court to advertisements disseminated in the high street. For the legal and political advocate persuasion is also a professional technique that must be perfected properly to practise each art. In contrast with the classical era and the middle ages in which grammar, rhetoric and dialectic were basic features of all education, modern curricula almost entirely neglect any theoretical study of the methods of rhetoric. *Rediscovering Rhetoric* re-introduces to modern practitioners and students a grasp of the speeches, writings and methodologies of the great classical scholars of rhetoric. Part 1: Law and Language in the Greco-Roman Tradition provides a contextualised introduction to significant theorists of rhetoric in the classical period and consists of four chapters written by practising barristers and a current Justice of the Federal Court of Australia. Part 2: The Practice of Persuasion comprises essays by practitioners distinguished in their pursuit of legal persuasion: one former and two current Justices of the High Court of Australia illuminating their experiences of argument from the perspective of both bench and bar. Part 3: The Politics of Persuasion performs a similar function to Part 2 in the related domain of politics. It includes a chapter by Graham Freudenberg, former speechwriter for Gough Whitlam and others. Together the three parts provide a unique interdisciplinary perspective on the theory and practice of legal and political persuasion. Published in association with the NSW Bar Association.

**Rediscovering Mrs. Murphy** Craig S. Austin, 2007-10 Upton Sinclair meets Joseph Heller: the funniest book since *A Confederacy of Dunces*. Austin's novel is an unlikely mixture of expose, social satire and high comedy that somehow brilliantly succeeds. It will make you laugh, cry and want to punch out.

your boss Don't read this book at work but by all means read it Charles Dodd Author *The Night Boy* Do you remember the best time of your life For Chuck Farlowe his time came and went one April day back in 1973 His A game unfortunately was left in the dugout that day Cut to 1998 His son Danny is at the crossroads of his life A young man in need of answers he finds them in the form of a long buried manuscript written by his father back in 1973 Suddenly he finds himself at a strange place and time the Hotchkis Department Store in downtown Oakland circa 1970 Danny is introduced to both the store manager Matt Farber and the store owner Isaac Benjamin Stern Soon a union election begins to loom ominously Chuck manages to find a kindred spirit in Lee Kroeber and eventually after a struggle with Cooper Smith whose own bitterness and alienation over store racism threatens to change the entire store dynamic When Wayne Justice joins the Hotchkis fold in 1971 soon the era of poker and male bonding begin Rediscovering Mrs Murphy is all about fighting through the pain of the past and rediscovering what really matters Rediscovering Lewis Ian S. Markham, Andrew Lazo, 2025-10-22 This timely collection of essays is an invitation to listen afresh to C S Lewis America's much loved theologian especially among evangelicals and Roman Catholics is being reclaimed as an Anglican who can shape the theology of the mainline A textured integrated and nuanced Lewis emerges from these essays with a focus on symbol poetry conversion friendship atonement and suffering Contributors come from a diversity of backgrounds and perspectives from Pakistan to England from evangelical to Catholic and from theologically conservative to progressive Often reduced to a popular apologist or author of children's stories this book makes the case that we are in the presence of an Anglican theologian with stature It is a pioneering text which will set an agenda for Lewis studies for decades to come Faithspace in the Workplace: Fifty Days of Rediscovering Your Soul At Work S. Craig Bishop, 2005 **Quest**, 1956 *The Reconciling Community* James Dallen, 1991 To disclose the underlying mystery of the Church in relation to Christ and sinners James Dallen traces the complex development of ecclesial repentance from the Church's first centuries to the present time He shows that the Church has always worked with sinful members assisting them to live out the implications of their baptismal conversion and recognizing them as members of its assemblies It is in this history the tradition that survives from those who have gone before marked by the sign of faith that the Church must find the way to exercise the ministry of reconciliation today and in the future **Intellectual Sacrifice and Other Mimetic Paradoxes** Paolo Diego Bubbio, 2018-01-01 *Intellectual Sacrifice and Other Mimetic Paradoxes* is an account of Paolo Diego Bubbio's twenty year intellectual journey through the twists and turns of Girard's mimetic theory The author analyzes philosophy and religion as enemy sisters engaged in an endless competitive struggle and identifies the intellectual space where this rivalry can either be perpetuated or come to a paradoxical resolution He goes on to explore topics ranging from arguments for the existence of God to mimetic theory's post Kantian legacy political implications and capacity for identifying epochal phenomena such as the crisis of the self in popular culture Bubbio concludes by advocating for an encounter between mimetic theory and contemporary philosophical hermeneutics an encounter in which each approach

benefits and is enriched by the resources of the other The volume features a previously unpublished letter by Ren Girard on the relationship between philosophy and religion *Madras Rediscovered* S. Muthiah, 2004 Medieval Formal Logic Mikko Yrjönsuuri, 2013-03-09 Central topics in medieval logic are here treated in a way that is congenial to the modern reader without compromising historical reliability The achievements of medieval logic are made available to a wider philosophical public than the medievalists themselves The three genres of logica moderna arising in a later Middle Ages are covered obligations insolubles and consequences the first time these have been treated in such a unified way The articles on obligations look at the role of logical consistence in medieval disputation techniques Those on insolubles concentrate on medieval solutions to the Liar Paradox There is also a systematic account of how medieval authors described the logical content of an inference and how they thought that the validity of an inference could be guaranteed Russell's Hidden Substitutional Theory Gregory Landini, 1998-08-20 This book explores an important central thread that unifies Russell's thoughts on logic in two works previously considered at odds with each other the *Principles of Mathematics* and the later *Principia Mathematica* This thread is Russell's doctrine that logic is an absolutely general science and that any calculus for it must embrace wholly unrestricted variables The heart of Landini's book is a careful analysis of Russell's largely unpublished substitutional theory On Landini's showing the substitutional theory reveals the unity of Russell's philosophy of logic and offers new avenues for a genuine solution of the paradoxes plaguing Logicism *Reconstituting the Curriculum* M. R. Islam, Gary M. Zatzman, Jaan S. Islam, 2013-11-13 Based on groundbreaking new ideas this treatise signals a return to a rebuilding and reshaping of the curriculum as the primary tool for education This book presents a new definition of curriculum and what it should consist of with a view toward creating a more ethical educated and thinking person Rather than treating students as products for society this approach returns to a view of the curriculum as a tool for educating students to reason through problems be bold in creating new solutions and contribute to a more vibrant just world The university curriculum introduced in the post Renaissance era dominated by doctrinal philosophy is based on learning or skill development suitable for creating a learned society that would eventually serve the establishment This curriculum has been promoted as the only form suitable for the modern education system It has introduced a tremendous amount of tangible advancement in all fields of the structured education system These tangible gains are often promoted as knowledge This has created confusion between education acquiring knowledge and learning training or skill development This book seeks to clarify the difference between these two divergent views of education It has been shown that the current curriculum is not conducive to increasing a student's knowledge because it is based on consolidating preconceived ideas that have been either passed on from previous generations or gained through personal experience In most cases this mode of cognition will not create a pathway for gaining knowledge that brings one closer to discovery The term education on the other hand is always meant to be a process of bringing forth one's inherent qualities and unique traits necessary and sufficient for increasing one
