Rural Modernity, Everyday Life and Visual Culture Rosemary Shirley, 2016-03-03 Through the lens of the everyday this book explores the countryside as an inhabited and practised realm with lived rhythms and routines It relocates the topography of everyday life from its habitually urban focus out into the English countryside The rural is often portrayed as existing outside of modernity or as its passive victim Here the rural is recast as an active and complex site of modernity a shift which contributes alternative ways of thinking the rural and a new perspective on the everyday In each chapter pieces of visual culture including scrapbooks art works adverts photographs and films are presented as tools of analysis which articulate how aspects of the everyday might operate differently in non metropolitan places The book features new readings of the work of significant artists and photographers such as Jeremy Deller and Alan Kane Stephen Willats Anna Fox Andrew Cross Tony Ray Jones and Homer Sykes seen through

this rural lens together with analysis of visually fascinating archival materials including early Shell Guides and rarely seen scrapbooks made by the Women's Institute Combining everyday life rural modernity and visual cultures this book is able to uncover new and different stories about the English countryside and contribute significantly to current thinking on everyday life rural geographies and visual cultures Henri Lefebvre, Boredom, and Everyday Life Patrick Gamsby, 2022-09-23 Henri Lefebvre Boredom and Everyday Life culls together the scattered fragments of Henri Lefebvre's 1901-1991 unrealized sociology of boredom In assembling these fragments sprinkled through Lefebvre's vast oeuvre Patrick Gamsby constructs the core elements of Lefebvre's latent theory of boredom Themes of time modernity everyday space urban suburban and mass culture culture industry industry culture are explored throughout the book unveiling a concealed dialectical movement at work with the experience of boredom In analyzing the dialectic of boredom Gamsby argues that Lefebvre's project of a critique of everyday life is key for making sense of the linkages between boredom and everyday life in the modern world

Home Truths Sarah Pink, 2020-05-26 Homes are powerfully defined by smells sounds textures and objects all of which reflect how people live their everyday lives From spray painting the toilet wall to relaxing in the bath the products we use speak volumes about who we are how we relate to others and who we want to be Based on extensive fieldwork this fascinating book explores the intimate material and sensory spaces of the home to uncover how gender roles are performed within our personal private worlds Pink shows how everyday items ranging from perfumes to soap powder imprint and reinforce daily experiences and a sense of identity How has the home been affected by the fact that more and more women now go to work and increasingly more men spend time engaged in domestic tasks How do more traditional family centred homes compare with those belonging to diverse family forms and people living alone What does a study of domestic gender tell us about how change occurs Answering these questions and many more Pink combines the most recent approaches in gender studies and material culture to show how everyday activities can be deeply revealing of gender roles in

Everyday Politics, Ordinary Lives Adrian Bingham, 2024-11-20 What did British citizens really feel about the political system their role in it and the people who represented them *Everyday Politics Ordinary Lives* examines British democracy from below investigating how electors understood politics and how they viewed its relationship to their lives from the establishment of a near democracy with the Representation of the People Act 1918 up until the rise of the internet and 24 hour news channels in the early 1990s It focuses on the everyday political opinions discussions and interactions of ordinary British voters in the period and pays attention to the ways in which women young people and minoritized groups related to a political system dominated by men Adrian Bingham incorporates material from a broad and diverse range of sources from pioneering social surveys conducted after the First World War through the mid century qualitative research of Mass Observation and early political scientists up to the data driven work of the British Election Study and modern pollsters such as Gallup and MORI The book also draws extensively on the archives of the Conservative and Labour parties as they sought to understand the attitudes of the voters they were trying to attract and content from the media memoirs diaries and life writing *Everyday Politics Ordinary Lives* argues that most people across the period felt remote from politics and sceptical of politicians But this reflected the perception that the world of parliamentary debates and party intrigue was distant insular and rather impenetrable not that people did not care about political issues or have a desire to improve their position Britain was home to plenty of everyday political thinking and conversation and the amount and quality of this activity tended to increase and improve over the period as people became better educated had access to more information through the media and the power of the democratic ideal grew in strength over the period The author maps these changing patterns of political support to deeper social and cultural developments and thereby produce a new and distinctive history of British democracy that challenges some of the simplistic narratives that underpin contemporary political debate

Dave Barry's Book of Bad Songs Dave Barry, 2012-11-06 The humorist asked his readers to share their least favorite tunes and chronicles the hilarious responses When funnyman Dave Barry asked readers about their least favorite tunes he thought he was penning just another installment of his weekly syndicated humor column But the witty writer was flabbergasted by the response when over 10 000 readers voted I have never written a column that got a bigger response than the one announcing the Bad Song Survey Barry wrote Based on the results of the survey Dave Barry's Book of Bad Songs is a compilation of some of the worst songs ever written Dave Barry fans will relish his quirky take Music buffs too will appreciate this humorous stroll through the world's worst lyrics The only thing wrong with this book is that readers will find themselves unable to stop mentally singing the greatest hits of Gary Puckett Praise for Dave Barry's Book of Bad Songs Barry is his usual puckish self but the real surprise here is how funny many of the survey respondents are Kirkus Reviews Who can resist such a book Publishers Weekly

Everyday Feminist Research Praxis Koen Leurs, Domitilla Olivieri, 2014-10-02 Everyday Feminist Research Praxis Doing Gender in The Netherlands offers a selection of previously unpublished work presented during the 2011 2012 and 2013 Netherlands Research School of Gender Studies NOG conferences Reflecting the wide spectrum of interdisciplinary gender studies this volume is organised into four sections along four conceptual knots These thematic entry points are space time affectivity public private and technological mediation The central emphasis of this volume is twofold first the everyday is approached as a concretely grounded site of micro political power struggles Second the contributors make explicit connections between theory and their everyday feminist research practices As a whole the interventions ranging from fashion modelling child birthing discourses and digital documentaries show how feminist research praxis remains crucial in critically disentangling naturalized routines of daily life which in turn enables the scrutiny of for example the arbitrariness of entrenched power relations and contradictory personal and collective everyday trajectories Everyday Feminist Research Praxis thus energises possibilities for new forms of recognition representation and

redistribution of power **Voices from the North** Jan Ohman, 2018-05-08 While contemporary human geography has widely acknowledged that knowledge has both contingent and contextual character international literature has tended to blot out differences and reproduce hegemonic Anglo Saxon discourses Any interest in destabilizing such power knowledge systems calls upon interventions from other voices Nordic voices in particular have not been well represented in current human geography This book redresses the balance by offering a unique assessment of the geographical research being undertaken in the Nordic countries and by demonstrating the way in which these voices contribute to international debate It brings together a range of Nordic authors each of whom has made a significant contribution to such debates and considers the relationship between production and social institutions in local development It also examines the ambiguous role of the welfare state in the Nordic countries issues of social practice and identity and their relationship to spatiality new approaches to landscape and environment and the significance of difference and relations of power Theoretical discussion illustrated by empirical examples reveals the interweaving in Nordic human geography of international affiliations and Nordic situatedness
