sub lord it is positioned in All planets moving from Vernal Equinox Aries according to the Nirayana system get their results modified as they move in the Zodiac Thus in the first 13 20 any planet transiting in Mesha will be influenced by the constellation called Aswini and so on till Revathi in which the planet will be influenced by Mercury As the duration of the zone 13 20 for each Nakshatra is a broad zone they are further classed into nine parts in proportion to their duration as per their Vimshotri Dasa This is termed as the sub lord Normally Jupiter Venus affiliated Mercury and waxing Moon are termed as natural benefics while Sun Mars Saturn Rahu Ketu as malefics But in KP it is determined by sub lord planet is posited in 1 The planet in a constellation will offer the result of Bhava house occupied by the lord of the constellation 2 The planet which is situated in a constellation is the strongest to offer the results of the house occupied by the lord of the constellation 3 The occupants of a house is strong to give the results of the house occupied by it Planets in the constellation of the occupants of a Bhava will indicate the fruits of the Bhava 4 Planet deposited in the constellation of the lord of the sign where the cusp of a house falls 5 Then only the lord of the sign where the cusp of a house falls The above form the various significators for the determination of a particular event Only the conjoined planets of the above should be utilised for determining the end result Hence it may be concluded that the planet is the resource constellation indicates nature of the result and the sub is a deciding factor whether the matter is favourable or not Unless the last is favourable we do not call it a benefic Note Rahu Kethu are Nodes A node signifies firstly the results of the planet or planets with which It Is conjoined then the results of lord of the constellation in which It is deposited then the planet or planets aspecting it and lastly of the owner of the sign in which it is deposited
