The Ecumenical Legacy of the Cappadocians Nicu Dumitra?cu, 2016-04-29 This book brings

the Cappadocian Fathers to life and explores their contributions to subsequent Christian thought. Melding together a thematic and individualized approach, the book examines Cappadocian thought in relation to Greek philosophy and the musings of other Christian thinkers of the time. The volume is unique in that it details the Cappadocian legacy upon the three central divisions of Christianity rather than focusing on one confession. Providing a multifaceted assessment of the spirituality and beliefs of the fourth century Church, contributors interweave historical studies into their philosophical and theological discussions. The volume draws together an international team of scholars from a variety of academic backgrounds including philosophy, theology, and Classics. The contributors bring their unique perspectives to bear on their analysis of the Cappadocians' theological contributions. Special attention is given to the Cappadocians' influence on pneumatology, Christology, and ethics. The *Ecumenical Legacy of the Cappadocians* sets the Cappadocians' theoretical views in relief against the political and historical background of their day, enlivening and vivifying the analysis with engaging biographical sketches.

The Legacy of Mistigo Gayle L. Parr, 2015-02-14. When Mistigo and her dark magic emerge during postdiluvian days, neither her aunt Imma or others in their Canaanite village can measure her abilities. They cannot fathom that Mistigo's power is strong enough to reach into the twenty-first century to influence her direct descendant, Michaela Cross. As Mistigo grows, Imma harbors secret fears about her half-human niece. Ancient days pass; Michaela is born and grows into an adopted modern-day child, being raised in rural Kentucky. The little girl discovers her own magical abilities at six years old. They develop in strength and power as she matures into a woman. Soon after Michaela embarks on a quest to determine her true identity, she is kidnapped. While in captivity, she discovers that not only is her father a Satanist, but he intends to assist with the birth of the Anti-Christ, and he expects Michaela to support his cause.

Intellectual Life in the Hijāz before Wahhabism Naser Dumairieh, 2021-12-13. In *Intellectual Life in the ij z before Wahhabism*, Naser Dumairieh argues that, as a result of changing global conditions facilitating the movement of scholars and texts, the seventeenth-century ij z was one of the most important intellectual centers of the Islamic world, acting as a hub between its different parts. Positioning Ibr h m al K r n d 1101-1690 as representative of the intellectual activities of the pre-Wahhabism ij z, Dumairieh argues that his coherent philosophical system represents a synthesis of several major post-classical traditions of Islamic thought, namely kal m and Akbarian appropriations of Avicennian metaphysics. Al K r n s work is the culmination of the philosophized Akbarian tradition with his reconciliation of Ibn Arab s ideas with Ash ar theology. Ibn Arab s ideas became Islamic theology.

Under the Volcano. Warburg's Legacy Giulia Zanon, Gertrud Bing, Max Adolph Warburg, Davide Stimilli, Martin Tremel, Chiara Velicogna, Fritz Rougemont, Monica Centanni, Giacomo Calandra di Roccolino, André Jolles, Wannes Wets, Dorothee Gelhard, Giovanni Careri, Edgar Wind, Jaynie Anderson, Bernardino Branca, Fabio Tononi, Ianick Takaes, *Under the Volcano: Warburg's Legacy* explores the enduring influence of Aby Warburg's ideas, likening his intellectual legacy to volcanic activity continually shaping the landscape of cultural history. If Warburg was a volcano, this issue is structured around the metaphorical fissures

and lava flows and is divided into four sections Unpublished Rediscovery Readings Presentation **Mystical Languages of Unsay**

Michael A. Sells, 1994-05-02 The subject of *Mystical Languages of Unsay* is an important but neglected mode of mystical discourse apophasis which literally means speaking away Sometimes translated as negative theology apophatic discourse embraces the impossibility of naming something that is ineffable by continually turning back upon its own propositions and names In this close study of apophasis in Greek Christian and Islamic texts Michael Sells offers a sustained critical account of how apophatic language works the conventions logic and paradoxes it employs and the dilemmas encountered in any attempt to analyze it This book includes readings of the most rigorously apophatic texts of Plotinus John the Scot Eriugena Ibn Arabi Marguerite Porete and Meister Eckhart with comparative reference to important apophatic writers in the Jewish tradition such as Abraham Abulafia and Moses de Leon Sells reveals essential common features in the writings of these authors despite their wide ranging differences in era tradition and theology By showing how apophasis works as a mode of discourse rather than as a negative theology this work opens a rich heritage to reevaluation Sells demonstrates that the more radical claims of apophatic writers claims that critics have often dismissed as hyperbolic or condemned as pantheistic or nihilistic are vital to an adequate account of the mystical languages of unsaying This work also has important implications for the relationship of classical apophasis to contemporary languages of the unsayable Sells challenges many widely circulated characterizations of apophasis among deconstructionists as well as a number of common notions about medieval thought and gender relations in medieval mysticism Queering the Middle Ages Glenn Burger, Steven F. Kruger, 2001 The essays in this volume present new work that in one way or another queers stabilized conceptions of the Middle Ages allowing us to see the period and its systems of sexuality in radically different off center and revealing ways While not denying the force of gender and sexual norms the authors consider how historical work has written out or over what might have been non normative in medieval sex and culture and they work to restore a sense of such instabilities At the same time they ask how this pursuit might allow us not only to re envision medieval studies but also to rethink how we study culture from our current set of vantage points within postmodernity The authors focus on particular medieval moments Christine de Pizan s representation of female sexuality chastity in the Grail romances the illustration of the sodomite in manuscript commentaries on Dante s *Commedia* the complex ways that sexuality inflected English national politics at the time of Edward II s deposition the construction of the sodomitic Moor by Reconquista Spain Throughout their work seeks to disturb a logic that sees the past as significant only insofar as it may make sense for and of a stabilized present

Marshall McLuhan's Mosaic Elena Lamberti,2012-01-01 One hundred years after Marshall McLuhan s birth Elena Lamberti explores a fundamental yet neglected aspect of his work the solid humanistic roots of his original mosaic form of writing In this investigation of how his famous communication theories were influenced by literature and the arts Lamberti proposes a new approach to McLuhan s thought Lamberti delves into McLuhan s humanism in light of his work on media and culture exploring how he began to perceive literature not just as a subject but a function inseparable from communal existence Lamberti pays particular attention to the central role played by Modernism in the making of his theories including the writings of Ford Madox Ford James Joyce Ezra Pound and Wyndham Lewis Reconnecting McLuhan with his literary past Marshall McLuhan s Mosaic is a demonstration of one of his greatest ideas that literature not only matters but can help us understand the hidden patterns that rule our environment

The Medieval Heart Heather Webb,2010-01-01 Heather Webb studies medieval notions of the heart to explore the lost circulations of an era when individual lives and bodies were defined by their extensions into the world rather than as self perpetuating self limited entities Drawing from the works of Dante Catherine of Siena Boccaccio Aquinas and Cavalcanti and other literary philosophic and scientific texts she reveals medieval answers to such fundamental questions as Where is life located What does it consist of Where does it begin And how does it end Against the modern idea of the isolated self the medieval heart provides a model for rethinking the body s relationship to the world it inhabits
