The Mark Of An Alpha Pack Discipline:

Pack Discipline: Kim Dare,2010-11 The Mark of an Alpha Werewolf tradition is very clear The alpha pair is the corner stone of the pack Equality between the alphas is everything Alphas mate with alphas Human leather clubs work to different rules Dominants mate with submissives Power is exchanged freely and for the ultimate pleasure of all Sometimes the most alpha men in the club find happiness with the most omega men And sometimes the omegas are more than they first appear to be A wolf might be able to hide his identity and play anonymously in those clubs for a little while but he can't ignore reality forever Marsdon and Bennett have lives to get back to they have packs to return to they have wolfen traditions to follow They have just one more night together before they have to lose each other forever All they can do now is make the most of it The Strength of a Gamma Steffan has been best friends with Francis ever since the younger wolf joined the pack after his own parents died He's been in love with him for just as long But when a new beta joins their pack he knows it's time to step aside and let Francis form a bond with a more dominant wolf Francis has no idea why Steffan's been acting so strangely since the new wolves joined their pack When he discovers the truth he starts to question things he'd never thought to doubt before What if he has no interest in a dominant mate What if he could find the perfect partner far closer to home Everything is about to change for Francis and Steffan The only question is are the gammas strong enough to cope

Shaping the Wolf Within Your Dog Nathan B. Childs,2004 Shaping the Wolf Within Your Dog is a comparison study of wolf and dog behavior It is also a comprehensive guide for living in harmony with dogs We know dogs are genetically related to the wolf and both exhibit identical instincts behaviors temperaments and dispositions and both abide to the law of nature that contends for any animal grouping to survive there must be social order and communication between its members Knowing this we should learn all we can about wolf behavior and incorporate that knowledge with our dogs By learning how pack animals establish social order and communicate with one another we can use this information to shape our dogs natural instincts without having to use food bribes or violence When we communicate in our dogs language we will be able to communicate our leadership The outcome will be predictable for we will be using the same methods of an alpha wolf when he establishes and maintains social order with a pack of wolves We will be shaping the same wolf instincts that are intact and engaged in each of our dogs Shaping the
