THE TRAUMA OF BIRTH IN ITS IMPORTANCE FOR PSYCHOANALYTIC THERAPY*

By Otto Rank

TRANSLATED

It gives me great pleasure to join the American Psychoanalytic Association for the first time, and to have the opportunity of personally meeting and getting to know the representatives of psychoanalysis in America whom I have long ago known from their writings. And I should very much like you all to consider my appearance here as a personal introduction. And so I have the intent to give you only a general impression of what I consider my own personal contribution to Psychoanalysis, certainly as concisely as possible, even at the risk of leaving out much.

I want you to understand that I do not intend to prove anything to you, nor do I wish to convince you. Also I do not expect you immediately to form any opinion or judgment about what you hear until you have tried to prove it in your own analytic work. I would prefer you to listen as if a teacher were relating to you his experiences in a yet undiscovered country.

I have recently published a book, entitled "Das Trauma der Geburt und seine Bedeutung für die Psychoanalyse" ("The Trauma of Birth and its Importance for Psychoanalysis"). I am very sorry that I am not able to start my talk by giving you a definition of what the Trauma of Birth really is. I could not do this without giving long explanations. For these, I can only refer to the book itself.

* A paper read before the American Psychoanalytic Association on June 2, 1926, in Atlantic City.

Knutson,1980 A fascinating exploration of how the law as viewed and decided by the courts often embodies fear and prejudice against homosexuality and thereby becomes the instrument for discrimination This valuable book covers a wide range of subjects illustrating the extent to which the lives of gay persons are touched by these laws and providing a highly critical examination of the response by the American judicial system to our claims for equal protection under the law Leading law professors and practicing lawyers address the important legal issues and court decisions relevant to male and female homosexuality criminal punishment for gay sex acts employment discrimination child custody gay organizational rights and more **Mythology and Values** Katherine Spencer,2014-11-11 In this book Katherine Spencer examines Navaho cultural values by studying a specific subset of Navaho mythology chantway myths part of ceremonies performed to cure illness She begins with a summary of the general plot construction of chantway myths and the value themes presented in these plots then discusses explanatory elements inserted by the narrators of the myths She continues with a deeper analysis of the cultural value judgements conveyed by these myths At the end of the book Spencer includes abstracts of the myths she discusses **Listening Deeply** Howard F. Stein,2017-06-01 Listening deeply is the foundation of all effective organizational management research and consulting This book explores the many aspects of attentive listening through storytelling and includes examples of organizational case studies In Stein s practice listening deeply is an attitude evoked by the psychoanalytic concept of hovering attention a careful attending to the person or group one is trying to help and an equally careful attending to how one is hearing these others The listener s own feelings are as crucially diagnostic as what the consultant observes in other people This new edition of Listening Deeply updates historical context theory method and organizational stories A psychodynamic orientation informs much of the book and the language Stein uses is direct His lessons are useful to the manager in any kind of organization as well as practitioners of psychology sociology business management medicine and education Transpersonal Ecosophy, Vol. 1: Theory, Methods and Clinical Assessments Mark A. Schroll,2016-01-24 The image on the cover of this book represents the idea that brain state alterations at sacred sites allow us to re experience memories that are woven into the morphogenetic fields of that place an idea that originates with Paul

Devereux's empirical enquiry into dreams at sacred sites in Wales and England. This book examines how this investigation provides us with a new way of understanding consciousness and a new direction toward a reconciliation of the divorce between matter and spirit. We explore the work of David Lukoff and Stanislav and Christina Grof, the connections between the varieties of transformative experience in dream studies, ecopsychology, transpersonal psychology and the anthropology of consciousness as well as the overlap between David Bohm's interpretation of quantum theory and Rupert Sheldrake's hypothesis of formative causation.

Social Cohesion And Alienation George De Vos, 2019-07-11. An attempt at a final summary of much of my work in anthropology has been divided into two separate volumes: *Status Inequality: The Self in Culture* 1990, published by Sage Publications, and this present volume, *Social Cohesion and Alienation: Minorities in the United States and Japan*. Many of the themes touched upon in both volumes have appeared in a series of writings that stretch through a period starting in the early sixties through the late eighties. Some of these efforts resulted in books; others appeared separately as invited contributions to symposia, as special issues of journals, or as parts of edited volumes.

Intercultural Competencies in China Helena Maria Lischka, Peter Kürble, 2017-10-04. This volume focuses on a market that is one of the world's economically most important and at the same time one of the most difficult to understand culturally, at least from a Western point of view. China is the world's second largest economy in terms of nominal GDP and the largest in terms of purchasing power parity. At the same time, China has one of the world's oldest cultures and was the cradle for extremely influential philosophical approaches that even today continue to have a tremendous impact on every sphere of Chinese society. As a result, business in China is directly or indirectly influenced by a distinct Chinese pragmatism, personalized networking, *guanxi*, the concept of saving face, and the idea of business as a battlefield. Familiarity with Chinese culture and negotiating practices is a key factor for promoting successful business transactions. In this book, the authors aim to close the gap between publications that are of purely academic interest on the one hand and general guidebooks on the other. *Intercultural Competencies in China* provides a comprehensive selection of topics that are crucial for understanding what lies behind cultural differences, making the book essential reading for business purposes and private contacts in China. Although the book is academically oriented, all of the essays are also accessible for the general reader.

Symposium of the Whole Jerome Rothenberg, Diane Rothenberg, 2016-04-19. Symposium of the Whole traces a discourse on poetry and culture that has profoundly influenced the art of our time, with precedents going back two centuries and more. Beginning with a reassertion of the complexity of poetry among peoples long labeled primitive and savage, many recent poets have sought to base a new poetics over the fullest range of human cultures. The attempt to define an ethno-poetics has been significantly connected with the most experimental and

future directed side of Romantic and modern poetry both in the Western world and increasingly outside it As a visionary poetics and as a politics this complex redefinition of cultural and intellectual values has involved a rarely acknowledged collaboration between poets and scholars who together have challenged the narrow view of literature that has excluded so many traditions In this gathering the Rothenbergs follow the idea of an ethnopoetics from predecessors such as Vico Blake Thoreau and Tzara to more recent essays and manifestos by poets and social thinkers such as Olson Eliade Snyder Turner and Baraka The themes range widely from the divergence of oral and written cultures to the shaman as proto poet and the reemergence of suppressed and rejected forms and images the goddess the trickster and the human universe The book s three ethnographic sections demonstrate how various poetics are structured and composed how they reflect meaning and worldview and how they are performed in cultures where all art may be thought of as art in motion Among the poetics discussed are the language of magic West African drum language and poetry the Huichol Indian language of reversals chance operations in African divination poetry picture writings and action writings from Australia and Africa and American Indian sacred clown dramas and traditional trickster narratives The cumulative effect is a new reading of the poetic past and present in the editors words a changed paradigm of what poetry was or now could come to be American Examples Samah Choudhury, Michael J. Altman, Prea Persaud, 2022-12-06 The second volume of American Examples presents nine new essays with fresh multidisciplinary approaches to understanding the place of faith broadly understood in America broadly understood **Thicker Than Water** Leonore Davidoff, 2012 A pioneering new study of nineteenth century kinship and family relations focusing on the British middle class and highlighting both the similarities and the differences in relations between brothers and sisters in the past and in the present **The Metamorphoses of Kinship** Maurice Godelier, 2012-03-03 With marriage in decline divorce on the rise the demise of the nuclear family and the increase in marriages and adoptions among same sex partners it is clear that the structures of kinship in the modern West are in a state of flux In *The Metamorphoses of Kinship* the world renowned anthropologist Maurice Godelier contextualizes these developments surveying the accumulated experience of humanity with regard to such phenomena as the organization of lines of descent sexuality and sexual prohibitions In parallel Godelier studies the evolution of Western conjugal and familial traditions from their roots in the nineteenth century to the present The conclusion he draws is that it is never the case that a man and a woman are sufficient on their own to raise a child and nowhere are relations of kinship or the family the keystone of society Godelier argues that the changes of the last thirty years do not herald the disappearance or death agony of kinship but rather its remarkable metamorphosis one that ironically is bringing us closer to the traditional societies studied by ethnologists **Sociological Abstracts** Leo P. Embracing the Tune of Term: An Emotional Symphony within **The Journal Of Psychoanalytic Anthropology Volume Five Number Two**

In a global eaten by displays and the ceaseless chatter of quick connection, the melodic elegance and mental symphony developed by the written term frequently disappear in to the backdrop, eclipsed by the relentless sound and distractions that permeate our lives. However, set within the pages of **The Journal Of Psychoanalytic Anthropology Volume Five Number Two** a stunning literary prize full of organic thoughts, lies an immersive symphony waiting to be embraced. Constructed by an outstanding composer of language, that captivating masterpiece conducts readers on a psychological journey, skillfully unraveling the concealed songs and profound influence resonating within each cautiously constructed phrase. Within the depths of this emotional review, we will explore the book is central harmonies, analyze their enthralling writing type, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
