and appearing in feature films *Assembling the Dinosaur* follows dinosaur fossils from the field to the museum and into the commercial culture of North America's Gilded Age. Business tycoons like Andrew Carnegie and J. P. Morgan made common cause with vertebrate paleontologists to capitalize on the widespread appeal of dinosaurs using them to project American exceptionalism back into prehistory. Learning from the show-stopping techniques of P. T. Barnum, museums exhibited dinosaurs to attract, entertain, and educate the public. By assembling the skeletons of dinosaurs into eye-catching displays, wealthy industrialists sought to cement their own reputations as generous benefactors of science, showing that modern capitalism could produce public goods in addition to profits. Behind the scenes, museums adopted corporate management practices to control the movement of dinosaur bones, restricting their circulation to influence their meaning and value in popular culture. Tracing the entwined relationship of dinosaurs, capitalism, and culture during the Gilded Age, Lukas Rieppel reveals the outsized role these giant reptiles played during one of the most consequential periods in American history. Praise for *Assembling the Dinosaur*: A penetrating study of legitimacy and capitalism in the realm of fossils. Verlyn Klinkenborg, *The New York Review of Books*. A solid entry into the growing body of literature on Gilded Age American paleontology, but it is particularly valuable for its contribution to enhancing our understanding of how science and its representation during that period were influenced by and in turn affected society as a whole. By incorporating cultural, economic, and scientific developments, Rieppel shines new light on the history of both American paleontology and museum exhibition practice. Ilja Nieuwland, *Science*. Jeff Lenburg, Joan Howard Maurer, Greg Lenburg, 2012. Provides information about the Stooges' lives and careers, including photographs, interviews, and filmography. Laurel and Hardy. Wes D. Gehring, 1990-06-27. This book presents a combined biographical, critical, and bibliographical estimate of Laurel and Hardy's significance in film comedy, the arts in general, and as popular culture icons. The book features biographical information on the public and private lives of Laurel and Hardy, a critique of four broad influences of Laurel and Hardy, and a bibliographical essay assessing key reference materials and locating research collections open to the student and/or scholar. **Naptown Memories**. Raymond M. Featherstone Jr., Raymond Featherstone, Jr., 2006-10. Even in those days, kids in grade school were slaves to fashion and creatures of habit. One of those creatures of our habit was the infamous raccoon skin cap, a must-have head covering for a ten-year-old boy. No doubt, the clothing fad originated with the popular 1936 movie *Daniel Boone* starring George O'Brien. Author Raymond M. Featherstone Jr. details the experiences of his middle-class Indianapolis family during the Great Depression and World War II, offering a lighthearted and humorous look at the 1930s and 1940s through the eyes of a young boy. Journey to the heart of Featherstone's neighborhood as he describes his childhood antics, eccentric neighbors, and family escapades. Featherstone recalls the fads, fashions, and expressions of the era and includes several thumbnail sketches of people, places, and things in the public eye. Ranging from a brief look at the 1933-34 Chicago World's Fair to the history of the yo-yo and to Featherstone's daily trips to the drugstore for Old Lady Schenkel's bottle of Virginia Dare port wine. *Naptown Memories*. One
